June 4, 2021

Greg & Nan Reuel
59-178 Kamehameha Hwy C-1
Haleiwa, HI 96712
TKM 590060340001

Mr. Daniel Orodenker and Members of Land Use Commission,

My review of the recommendation for IAL properties would be extremely hard on our CPR lot. We grow enough food for our needs and give extra to the poor or needy but would find it near impossible to grow and sell enough produce to hit the revenues required on your recommendation on 2/3 of an acre of land.
We would like to opt out of the IAL designation on our property.

Thanks,

Dino Michael Ventura

Re: Proposed Important Agricultural Land (IAL) Designation for TMK 6-2-002-006

Dear Land Use Commission:

I am the Trustee of the trust which owns the above-referenced property ("the property") located in the Haleiwa area. I have received notice that the City & County of Honolulu ("City") and the Land Use Commission ("LUC") are proposing the designation of the property as IAL pursuant to HRS 205-47(a).

This is to advise you that I object to designation of the property as IAL for a number of reasons. First, the property fails to meet the IAL criteria set forth by the law at HRS Secs. 205-44(c)(1)-(8). Second, the City failed to follow all of the statutory requirements set forth in HRS Secs. 205-41 through 205-51 prior to submitting its IAL recommendations and maps to the LUC. Third, I understand that even if the LUC accepts the IAL designations being proposed by the City, there may be an exclusion for parcels under 2 acres in size. The agricultural portion of the property is only 1.955 acres. An additional 5000 square feet of the property is set aside for residential use as this is the property on which me and my family reside. If IAL is adopted for an area including the property, the property should be exempted from IAL designation because it is under 2 acres in size.

For the above-stated reasons, I object to designation of the property as IAL, and, in the alternative, request that the property be exempted from IAL designation because it is less than 2 acres in size if the property is included in an area designated IAL. Please keep me advised of the progress of the designation process. Thank you for your attention to this letter and objections.

Very truly yours,

Dino Michael Ventura

Objection to Important Agricultural Designation (IAL)

I, Philip J. Rodgers, the sole administrator/owner of the Philip J. Rodgers Trust strongly object to the Important Agricultural Land (IAL) designation of my property located at 68-346 Olohio St., Waialua, HI 96791, Parcel ID/TMK#: RP 1-6-8-013-032-0000-000 due to: 1) the failure of my land to meet the IAL criteria set forth by the law at HRS Section 205-44 (c)(1-8) and 2) the City and County of Honolulu's failure to follow all the statutory requirements in HRS Sections 205-41 through 205-51, prior to submitting its IAL recommendations and maps to the Land Use Commission (LUC).

I also ask that I be informed of any further hearings, meetings, or decisions regarding my property via mail or email at the addresses listed below. If you should have any questions, I may also be reached at (808) 223-7321.

LAND USE COMMISSION
STATE OF HAWAII
2021 JUN 23 A 11:45

To
Director, Department of Planning & Permitting, City and County of Honolulu and
Commissioner, Hawaii Land Use Commission

RE: TMK 66028-024
Property Address: 66-1479 Kaukonahua Road, Waialua, HI 96791
Owners: Gerald Gordon & Ambika Ramamurthy
Area: 1.72 acres

Please regard this letter as our second request to have our land exempted form the IAL designation currently being considered by the Land Use Commission. There are various reasons why we are making this request.

The following recitation constitutes some of the difficulties with the IAL designation for our land:

1. Our land is relatively small. Our records, as well as Honolulu County Property Tax records, indicate that the area of our property is 1.72 acres. According to the information published on the IAL web pages 66-028-024 consists of 1.89 acres and 1.44 acres would receive the IAL designation. We want to note that 66-028-024 is burdened by an ingress- egress easement of about 3764 square feet as well as utility easements.
2. Our soil is fill and not deep. This fill covers solid lava rock.
3. Our topography consists of a small level area. This land is home to very old monkey pod trees which cover the rest.
4. We rely on well water. The flow rate is about 5 gpm. Although there is some ag. water available it is rated R1 Water and not safe to spray and not reliably available for our use.
5. We have no electrical hook up and no availability of city utilities. We have been making do with generators for a while.
6. The IAL designation would impose a heavy burden on us considering that I am over 70 years old and have physical limitations having had heart surgery a few years ago. I (Gerald Gordon) am retired from the Department of Education and currently use the land for growing fruit, raising a few chickens. We are not able to absorb the limitations and financial burden an IAL designation would present. Again, please consider our request to be exempted from the IAL designation.

Thank you.
Respectfully,

Gerald Gordon & Ambika Ramamurthy

LAND USE COMMISSION
STATE OF HAWAII
2021 JUN 23 A 11:46

June 12, 2021

Dear Land Use Commission and Others whom this may concern,

We are contacting you to communicate that we formally object to our parcels of land being included in the rezoning to Important Agricultural Lands.

TMK 1-5-9-006-034-002
1-5-9-006-034-003
1-5-9-006-034-004
1-5-9-006-034-005

Our land does not meet the criterial set forth by the law at HRS Section 205-44 (c) (1-8), and we feel that there have been failures on the City and County's behalf, including following all of the statutory requirements in HRS Sections 205-41 through 205-51, prior to submitting its IAL recommendations and maps to the LUC.

Our small, inadequate to be designated as IAL lands, parcels are surrounded by non IAL land.

Thank you for making note of this and for your considerations.

Mike and Susan Meister

P. O. Box 2359
Honolulu, Hawaii 96804

Dear Mr. Orodenker,

Please remove our property from the disgnated Important Agricultural Land (IAL). Ever since we purchased the property in 1967 we have yet to make a profit farming on 2.7 acers. 57 years farming full time and part time throughtout the years and not being able to turn a profit at all does not even come close to being an Important Ag Land.

There are many reasons that it is impossible to make a living as a farmer which I would gladly share however my concern now is for you to grant my request to remove our designation as an IAL.

Sincerely,

John Domen Jr.

LAND USE COMMISSION
STATE OF HAWAII
2021 JUN 23 A 11:46

Sir/Madam:

Subj: Proposed Designation of Parcel TMK: 85019040000 as IAL

Although we are owners, occupiers of this parcel, we do not "farm" nor would be able to sustain an economically feasible agricultural enterprise. A large portion of the property is in a ravine bordered by slopes on either side. Turning this property into an income-producing activity would require a substantial investment to:

- Level enough land to provide for more than a small garden
- Demolish the stables (permit-approved) that currently house 2 rescue horses and 2 mini horses
- Demolish and level an enclosure for 3 goats
- Destroy the by-design protective covering over our septic leach field (terminating its function and requiring us to request connection to a Hawaiian Homelands-owned sewer system)
- Cover the entire ground surface (predominately clay) with inches of enriched topsoil to grow anything
- Because we live in what NOAA classes as a desert, we would have to install a sprinkler system to irrigate the land, resulting in a very meager return on a large, recurring expenditure of water.

To be more specific, Waianae is arid and we currently spend approximately $800 a month during the summer months just to keep the grass surrounding our residence from becoming a fire hazard. We feed the horses hay because it is cost prohibitive to grow grass for them to graze in the arena. Interestingly, when the IAL designation was first introduced, we checked with the Board of Water Supply and were told that our property could not be made eligible to benefit from reduced water rates.

Even before the idea of this expansion of 'important agricultural land' was discussed, we have understood we were permitted only one residence while maintaining the 2 acres we own, a commitment we have honored without question. We never intended to turn this property into a commercial endeavor and, as attested to from the above, have kept faith with the spirit of responsible land usage for over 15 years.

Any new law that seeks to be retroactive is of questionable Constitutional compliance and would deserve to be litigated. For this reason and the facts of our record here, we respectfully request we be exempt from 85-720 Waianae Valley Rd. being designated IAL, if such a designation should be made. It would be preferable not to designate the land as such in the first place.

Sincerely,

JAMES AND SHIRLEY S NEWMAN

LAND USE COMMISSION
STATE OF HAWAII
2021 JUN 23 A 11:47

June 17, 2021

Honorable Jonathon Scheuer
Chair
Land Use Commission
P.O. Box 2359
Honolulu, Hawaii 96814-2359

SUBJECT: Opposition to Proposed Important Agricultural Lands Designation

Dear Chair Scheuer and Members of the Commission,

On April 30, 2021, I submitted testimony to the Land Use Commission via email voicing my opposition to the designation of my property as an Important Agricultural Land (IAL) parcel. Since I did not receive an acknowledgement to my submittal, I am submitting this letter with an attached copy of that submittal.

Subject property:
TMK: 4 1 26 009 (2 acres zoned AG-2)
41-610 Nonokio Street
Waimanalo, HI 96795

Fee owners:
Thomas J. and Melvine T. Mendes

Please consider my petition to opt out of the IAL designation for the reasons stated in my testimony. We are already zoned for agriculture, a zoning that has its requirements and restrictions. To the future, the IAL process needs to be more sensitive to the lives and needs of affected landowners, some of whom have been on their properties for generations. Providing better information would be a good start.

Thank you for your consideration.

Sincerely,

Thomas J Mendes

Thomas J Mendes

Testimony/Petition to the Land Use Commission Regarding the Proposed Important Agricultural Land (IAL) Designation

Subject Property:
TMK: 4 1 026 009 (2 acres zoned AG-2)
Address: 41-610 Nonokio Street, Waimanalo, HI 96795
Fee Owners: Thomas J. and Melvine T. Mendes
Date: 4-30-2021

As owners of the subject property, we strongly oppose having our property designated as IAL and respectfully opt out of having our parcel so designated. While we understand and appreciate the broad goals of this effort, we feel that the IAL concept is inappropriate for our property (and perhaps other small parcels like ours) for the following reasons:

1. This property is already zoned for agriculture (AG-2) with its requirements and restrictions that promote agricultural activity. The IAL process is not going to enhance the owner's ability to generate more revenue from small AG-2 parcels like ours.

2. The IAL process was insensitive to the home ownership needs of farmers on small AG lots. AG-2 zoning allows for a single-family residence, a home, not a farmhouse like it is called in the IAL rules.

3. Having lived on this property for 37 years, built our home and raised our family, we have also kept the land productive with agricultural activity. We have photos that show early crops. We sold cut flowers and raised hundreds of pheasants and other gamebirds for the DLNR's hunting program. But this year I will be 80. There is no provision in the IAL designation for a landowner to enjoy retirement on his property.

4. Although well-intentioned, we believe that the IAL process was too broad brush and perhaps more appropriate for very large properties. I was notified of the proposed designation only days ago, seemingly like an after-thought to meet some acreage goal.

Respectfully submitted,

Thomas J. Mendes

Re: Monsanto Technology LLC, City and County IAL; TMK (1) 9-2-001-016 (area 0.20 acre)

Dear Executive Officer Orodenker:

Our office represents Monsanto Technology LLC, a Delaware limited liability company, the owner of Lot 16851-A-2 (Map 1647) of Land Court Application No. 1069, also being known as Tax Map Key No. (1) 9-2-001-016 (the **"Parcel"**). The Parcel is a portion of the land owned by Monsanto Technology LLC in Kunia, Oahu. In Docket No. DR 17-59 Monsanto Technology LLC's affiliate and predecessor in title sought and obtained approval from the Land Use Commission (the **"Commission"**) to voluntarily designate approximately 1,550 acres of its land in Kunia, Oahu as Important Agricultural Lands, or **"IAL"**. As set forth in Finding of Fact No. 21 of the Commission's Findings of Fact, Conclusions of Law, and Decision and Order in Docket No. DR 17-59, this 1,550 acres was 72% (or a majority) of the land owned in fee simple by the Petitioner in the City and County of Honolulu. Approximately 600.64 acres (which land is not in the State Conservation District) were excluded from the Petition – meaning the Petitioner did not want to designate such lands as IAL, which was the Petitioner's prerogative. The Parcel is a very small portion of these 600.64 acres of excluded land.

HRS §205-49(a)(3), states in relevant part as follows:

> "[I]f the majority of landowners' landholdings is already designated as important agricultural lands, excluding lands held in the conservation district, pursuant to section 205-45 or any other provision of this part, the commission shall not designate any additional lands of that landowner as important agricultural lands except by a petition pursuant to section 205-45." (emphasis added).

Based upon the foregoing as a matter of law, under HRS §205-49 the Commission is prohibited from designating the Parcel as IAL in the City and County of Honolulu's proceeding before the Commission. Monsanto Technology LLC respectfully requests that the Parcel be removed from this docket.

If you have any questions with respect to this matter, please contact me at 808.523.2561 or mmurakami@carlsmith.com.

Respectfully submitted,

Mark K. Murakami
Attorney for Monsanto Technology LLC

cc: Monsanto Technology LLC
