HILO, HAWAII 96721-0916

MEMORANDUM

DATE: March 27, 2014

TO: Duane Kanuha
Planning Director, County of Hawaii

FROM: Newton Inouye *ni*
District Environmental Health Program Chief

SUBJECT: Special Permit (SPP 14-000162)
Applicant: Jas W. Glover, Ltd.
Request: To Establish a New Quarry
Tax Map Key: 2-1-013:004

Wastewater Branch found no wastewater/environmental health concerns with regulatory implications in the submittal.

The applicant would need to meet the permit requirements of our Department of Health Air Pollution Rule, Chapter 60.1, Title 11, State of Hawaii for the proposed quarry operations. If there is need to discuss these requirements, please contact our Clean Air Branch staff in Honolulu, Ph. 586-4200.

We recommend that you review all of the Standard Comments on our website: <http://hawaii.gov/health/environmental/env-planning/landuse/landuse.html>. Any comments specifically applicable to this project should be adhered to.

The same website also features a Healthy Community Design Smart Growth Checklist (Checklist) created by Built Environment Working Group (BEWG) of the Hawaii State Department of Health. The BEWG recommends that state and county planning departments, developers, planners, engineers and other interested parties apply the healthy built environment principles in the Checklist whenever they plan or review new developments or redevelopments projects. We also ask you to share this list with others to increase community awareness on healthy community design.
