Aloha,

I don't approve on the proposal for the new development at HoKua place. As a kapa'a residence for 28 years, traffic has not improved. Adding this new subdivision would increase the traffic.

I am writing to express that the 'Hokua place' development in Kapaa is not a good idea right now considering the major traffic struggles we already face. Unless a feasible solution to the traffic problem is presented, the development should not take place.

Thank You,

Sincerely, Carey Tinsley
