

2016 MAR 16 A 7 23

March 10, 2016

Mr. Daniel Orodener
Executive Officer
Land Use Commission
P. O. Box 2359
Honolulu, HI 96804-2359

Dear Mr. Orodener:

2016 Annual Report
Docket No. A89-648
Kapolei Maritime Industrial Park

Campbell Hawaii Investor LLC (“Owner”), an affiliate of the James Campbell Company LLC, submits this annual progress report to the Land Use Commission (“LUC”), the Office of Planning, and the Department of Planning and Permitting pursuant to Condition 12 of the March 22, 1990 LUC Decision and Order in Docket No. A89-648. The subject of this annual report is the petition area comprised of 63.569 acres (“Petition Area”) located at Honouliuli, Ewa, Oahu, Tax Map Key Number 9-1-14:26.

On January 7, 2013 a Final Order of Condemnation (“FOC”) was recorded for a 53.948-acre portion of the Petition Area. The FOC, with the State of Hawaii Department of Transportation (“DOT”) as Plaintiff and Owner as Defendant, was signed by a judge of the First Circuit Court of the State of Hawaii on December 31, 2012. The approximately remainder of the Petition Area that was not acquired through condemnation remains under the ownership of the Owner.

These conditions to reclassification are reproduced boldface followed by a description of the progress being made to comply with them to the extent they relate to the 9.6-acre remainder of the Petition Area not acquired through eminent domain. Approximately 4.5 acres of this remainder area is planned as an open drainage channel.

- 1. Petitioner shall develop the subject property for maritime industrial uses in support of and compatible with activities at Barbers Point Harbor in substantial compliance with the representations made before the Commission.**

The Petition Area is zoned I-3 Waterfront Industrial and future uses will be consistent with industrial activities related to Kalaeloa-Barber’s Point Harbor. The purpose of the acquisition of most of the Petition Area through eminent domain by DOT Harbor’s Division was for it to serve as an expansion area for Kalaeloa Barber’s Point Harbor.

- 2. Petitioner shall provide its pro rata share in the funding and construction of present and future transportation improvements as outlined in the proposed Ewa Highway Master Plan and by the State Department of Transportation.**

Petitioner reached agreement with the Department of Transportation on the level of funding and participation in the construction of local and regional transportation improvements. The Master Kapolei Highway Agreement with the Department of Transportation dated June 1, 2010 was provided in a previous annual report.

- 3. Petitioner shall fund and construct the project's wastewater disposal systems acceptable to the State Department of Health.**

The Petition Area's development will include wastewater facilities acceptable to the State Department of Health.

- 4. Petitioner shall provide water source and transmission to service the subject project.**

Water transmission and storage facilities to service the project have been installed. The project's potable water requirement is slated to be provided by the Board of Water Supply's sources.

- 5. Petitioner shall provide drainage improvements in the Property and shall coordinate off-site improvements with adjoining landowners and developers and/or other federal, state, or city agencies.**

Preliminary drainage improvements, which were designed to eliminate water from drainage into Kalaeloa Harbor, have been installed. These improvements have been coordinated with the DOT Harbors Division. The planning and permitting of the regional drainage system to serve the watershed including the Petition Area is underway.

- 6. Petitioner shall dispose of any hazardous or noxious waste generated by the proposed project in accordance with federal and state guidelines and shall fund mitigation measures, should adverse impacts occur.**

Petitioner will comply with this condition.

- 7. Petitioner shall participate in an air quality monitoring program as specified by the State Department of Health.**

Petitioner satisfied the requirements of the Department of Health related to air quality monitoring as indicated in earlier reports.

- 8. Petitioner shall provide its equitable pro rata share for police and fire facilities based on such public service needs directly emanating from Petitioner's development of the subject property.**

The Kapolei Fire Station and the Kapolei Regional Police Facility are completed, occupied and providing service to the area. Land for both facilities was dedicated to the City and County at no cost.

- 9. Petitioner shall immediately stop work and contact the State Historic Preservation office should any archaeological resources such as artifacts, shell, bone or charcoal deposits, human burial, rock or coral alignments, paving or walls be encountered during the project's development.**

No such resources have been found to date and development of the Petition Area will be compliant with the condition.

- 10. Petitioner shall coordinate with the Department of Navy to assure that development of the subject property will be compatible with the operations of Barbers Point Naval Air Station.**

Barbers Point Naval Air Station closed in July 1999. The Petitioner continues to work with Hawaii Community Development Authority in planning for the reuse of the former Barbers Point Naval Air Station.

- 11. Petitioner shall notify the Commission of any intent to sell, lease, assign, place in trust, or otherwise voluntarily alter the ownership interest in the property prior to visible commencement of construction of the property.**

Please see the aforementioned status update regarding DOT's condemnation of the majority of the property.

- 12. Petitioner shall provide annual reports to the Commission; the State Office of Planning; and the City and County of Honolulu, Department of Planning and Permitting in connection with the status of the project and Petitioner's progress in complying with the conditions imposed.**

Petitioner submits this Annual Report to advise the Commission as to the status of the project and Petitioner's progress in complying with the conditions imposed.

Mr. Daniel Orodener

- 13. The Commission may fully or partially release these conditions as to all or any portion of the Property upon timely motion, and upon the provision of adequate assurance of satisfaction of these conditions by the Petitioner.**

Petitioner has not moved to have these conditions fully or partially released.

If you have any questions, please call me at 674-3289.

Sincerely,

Steve Kelly
Vice President, Development
