Re: Petition for Declaratory Order to Designate Important Agricultural Lands  
Docket No. DR14-52  
Kamehameha Schools  
420.887 acres (Punalu`u, O`ahu)

Historically, lands in Punalu`u have been utilized for agriculture, first in kalo, then rice, then sugar cane and finally in small farms. Kamehameha Schools has expressed its commitment to long-term agricultural production by seeking to improve its agricultural lands.

The Punalu`u Community Association, established in 1956 primarily to address water issues, has always supported agricultural use of the lands in Punalu`u and, therefore supports the Kamehameha Schools petition to designate its lands in Punalu`u as Important Agricultural Lands.

Creighton U. Mattoon, Sr.  
President

Re: Petition for Declaratory Order to Designate Important Agricultural Lands  
Docket No. DR14-52  
Kamehameha Schools  
9,592.048 acres (Kawailoa, Punalu'u)

I am testifying in strong support of Kamehameha Schools' petition to designate its lands in Punalu'u as important agricultural lands.

My name is Binh T. Huynh. I currently farm approximately 9 acres of land in Punalu'u. I have been farming these lands since 6.

The lands that I farm and the other lands in Punalu'u produce excellent agricultural yields and provide agricultural goods for our local markets, generates jobs while also supporting a sustainable food system and providing income for my family.

Kamehameha Schools has demonstrated its commitment to long-term agricultural production by continuously seeking to improve its agricultural lands. The petition is another example of Kamehameha Schools' efforts to protect agricultural land for generations to come.

Sincerely,  
*Binh T. Huynh*
