BACKGROUND

2. I make this declaration as a professional engineer with over 20 years of solid waste planning and landfill design experience in Hawai'i and over 25 years of experience on the US mainland. My professional opinions are based upon this experience and continued professional development in the field. Exhibit K19 is a true and correct copy of my resume and a list of my prior work as an expert witness.

INTRODUCTION AND SUMMARY

3. I have been requested to provide opinions related to three areas:

a. The current design and operation of the Waimanalo Gulch Sanitary Landfill (the "**Landfill**") and their impact on health and safety;

b. The process for siting a new landfill on the Island of Oahu and the effectiveness of the City and County of Honolulu's (the "**City**") current efforts through the current landfill site selection committee; and

c. The state of the practice for alternative methods for processing and/or disposing of solid waste and the City's diligence in pursuing such alternative methods.

4. Under my supervision and approval, my office has prepared a technical report on each of these subjects. True and correct copies of the reports are marked as Exhibits K146 (the "**Operations Report**"), K147 (the "**Siting Report**"), and K148 (the "**Alternatives Report**"). In this declaration, I provide an executive summary of the three reports.
