Testimony to Land Use Commission on **DOCKET NO. DR17-60**

**IN SUPPORT WITH CONDITIONS**, of Monsanto request for Declaration of IAL

With the following conditions:

1. Form a working stakeholder group comprised of Community members with no less than (2) Hawaiian Homesteaders, (2) Native Hawaiian Practitioners (1) member with Land Management Expertise and others as deemed appropriate.

Why?

To incorporate stakeholder concerns because there is no Management Plan for the lands covered by the designation.

To ensure agreed upon BMP's to fulfill the IAL ACT. To mitigate access issues, impacts to wildlife, invasive species prevention and management, review integrated pest management plan and pesticide use, use of water, address cultural issues.

**No Environmental Assessment or EIS or Section 106 consultation conducted for the declaration so absent of "Public Process" opportunities to voice concerns.**

*Remove IAL provision to reclassify lands w/in designation*

If Conditions not agreed to by the applicant than the testifier will petition the Commission to move to INTERVENE INTO A CONTESTED CASE HEARING.

Thank you,

Lori Buchanan  
Molokai
