## Summary

---

As Executive Director for Hui Mālama o Kōloa, we have been successful in the renovation of Emalani's Summer cottage at Lāwa'i Kai. As a group we were accepted into the Federal Highway Scenic Byway program (Holoholo Kōloa Scenic Byway) and have taken on the restoration and maintenance of the historic Hapa Trail. We are supporting and advocating for the preservation of the most unique field system in all of Polynesia, the Kōloa Field System. I have been retained as a community and cultural consultant for upcoming proposed projects within the moku of Kōloa.

My work today deeply involves historic preservation and restoring *wahi pana* on Kaua'i to enrich our lives and how the Hawaiians mastered complete sustainability for thousands of years before Western contact.

My family is among the oldest of Kōloa. My paternal side goes back to Alva Blake from Cornwall, United Kingdom (four generations in Kōloa). The maternal side goes back to Kamanolau, half sister of Ali'i Nui Kaumuali'i, whose lineage in Kōloa extends past 65 generations.
