MEMO TO: WILLIAM SPENCE, PLANNING DIRECTOR

F R O M: STEWART STANT, DIRECTOR OF ENVIRONMENTAL MANAGEMENT *SS*

SUBJECT: **APPLICATION FOR AMENDMENT TO PERMIT TERMS, CONDITIONS & TIME
STIPULATION FOR HANA LANDFILL SLUC SP08-402, CUP 2007/0001, SM1 2007/0003**

The attached application is for a time extension for the three land use permits for Hana Landfill which will expire on February 28, 2018: State Land Use Commission Special Use Permit, SP08-402, County Special Use Permit, CUP 2007/0001, and Special Management Area Permit, SM1 2007/0003.

No changes have occurred within the special management area since the granting of the permits to cause the landfill to have a substantial adverse environmental or ecological effect or to adversely affect the capacity or condition of infrastructure.

Hana Landfill continues to receive municipal solid waste from the public at the rate of approximately 4 tons/day. Since the granting of the permits, a detention pond, grass swale, and concrete ditch were constructed to collect storm water run-off from the landfill. The first phase of transfer of waste from the makai dump site to the mauka landfill was completed in August 2017.
