To: Kauai Land Use Commission:

Please do not authorize any more land use for building, especially changes from agriculture land, in Kapaa until the roads are improved! The Cane Haul Road from Kuhio Highway to the roundabout must have a northbound lane added and Kuhio Highway from the entrance of the back road (coming from the roundabout) to where the highway splits at Hanamaulu must have a fourth lane added. The current system of cones changing the direction of one lane has proven to be good only for road workers' job security. It should have been a temporary measure. Adding additional housing now will only exacerbate a bad situation. Have the roads upgraded first!
