Please do not approve of this change.

Please take pity on those of us who live on Kauai. Traffic is out of control. My clients who live in Lihue don't want to come to my office because the traffic is so out of hand.

It isn't the right time to expand and this isn't the right project, Kapaa is the working class neighborhood of the island; 30% affordable housing equals 70% unaffordable housing.

Our current infrastructure cannot handle further expansion at this time. Please take pity on us and vote for common sense restraint.

Thank You!
Dennis Mendonça
