---

Soon I'll have lived on the tropical jewel, Kauai, for 30 years.  
Please stop taking away what this beautiful island naturally offer.

I am recommending Alternative 1 – the No Action Alternative from the 2nd Draft Environmental Impact Statement. Under this alternative, no action will be taken and the Project area would remain zoned in Agriculture. Hokua Place would not be built. The land would remain in the State Lands Use Agricultural District.

NO Hokua Place!!!

NO more added traffic!!!

NO not realistic, mismonered as “affordable” disservice to a community truly in need of authentic affordable dwellings.

ALTERNATIVE 1 is only choice.
