What is wrong with you people. Do you all live and work in Lihue ONLY? Do ANY of you ever drive through Kapaa? Sometimes we sit in traffic for 40 minutes from the north of Kapaa to the south of Kapaa and same thing the other way. Stop building already you are so oo ruining this beautiful island just to make you richer and people who visit here say they are tired of traffic- that's why they come here in the first place, so they can get away from it. I think all of you on the planning commission really are not using your heads and think this through. maybe you All should take a ride through Kapaa.
