Subject: DOCKET NO. A17-794, proposed Kihei High School and Maui County's Declaratory Order
Date: Sunday, March 31, 2019 9:23:38 AM

Respected Commission Members,

I am a Kihei resident, classroom teacher and parent of children who attend and have attended Hawaii public schools.

I support Maui County's Declaratory Order. The logic is clear.

Further, I am in receipt of a postcard from Representative Tina Wildberger which mentions that she is supporting a request for ten million dollars to be specifically allocated for the construction of an over and or an underpass for the proposed Kihei high school.

If the DOE's original attempt to eschew your requirement was because their project did not include enough money for the over or underpass, why didn't they say so? Why put you and the public through this runaround with semantics? It may have been hard to say, but it's a hard truth, which is better than a bald-faced lie.

Sincerely,

Dezireen Austin
