Ms. Baptista provided background information and the history of why KNP could not comply with the conditions prescribed by the LUC's decision and order and

described how KNP's future plan was to create 26 lots within the Petition Area for a Planned Unit Development ("PUD") instead of attempting the large-scale development proposed by The Shopoff Group in the original Petition.

Commissioner Questions

Commissioner Okuda commended KNP for making the effort to appear before the Commission to resolve its predicament. Ms. Baptista described how the proposed PUD would attempt to preserve the cultural and archaeological features of the Petition Area and retain the "country feeling" of the area.

Commissioner Aczon requested clarification on what KNP intended to do within the Petition Area. Ms. Baptista deferred to Mr. Lee to describe the future efforts that KNP had planned for the PUD.

Chair Scheuer requested clarification on the site plan and what was reported in the last annual report. Chair Scheuer called for the County to make its presentation.

COUNTY

Mr. Kim offered Mr. Kanuha to respond to questioning. Mr. Kanuha stated that he had no specific comments to make about the proposed PUD and described what current County zoning allowed for the Petition Area under different land use designations.

Commissioner Questions

Commissioner Ohigashi requested clarification on whether County supported the reversion of the Petition Area to its former designation; and whether County would consider stipulating to an LUC reversion of the Petition Area. Mr. Kanuha shared his perspective of how land use trends had affected County's thinking and how a "Rural" designation could be supported by the Planning Department.

Commissioner Cabral inquired how the proposed PUD could be developed with a "Rural" land use designation. Mr. Kanuha described what was permissible under County PUD guidelines with the "Rural" designation.

Commissioner Okuda requested additional information on whether "Rural" allowed enough flexibility for the proposed PUD whether sweet potato farming would still be permissible. Mr. Kanuha described how a "Rural" designation would be in line with the County General Plan and allow for the PUD and sweet potato farming.

There were no further questions.

Chair Scheuer asked if OP had any comments.

OP

Ms. Apuna stated that OP had no comments.

Final Questions

Commissioner Wong expressed his appreciation for the information update on the Petition Area.

Commissioner Okuda described his understanding of what Commissioner Cabral was attempting to express in her Motion and stated that he felt that the Commission recognized that KNP had not made a Motion to the Commission. There was no objection by the other Commissioners to that representation of the Commission's understanding of Commissioner Cabral's motion.

Chair Scheuer stated that his reasons for supporting the OSC motion were like the previous docket and described how an OSC action might allow Petitioner an opportunity to share information with the Commission and move forward.

Chair Scheuer had Mr. Orodener poll the Commission. The Commission unanimously voted to issue an OSC (7-0-1 excused).

The Commission went into recess at 11:25 a.m. and reconvened at 11:31 a.m.
