Re: Request for the ability to Service Pulelehua

Dear Paul:

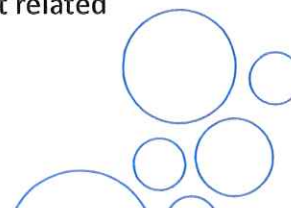

This letter is in response to your ("Applicant") request for Hawaii Water Service Company, Inc. ("HWSC") to expand HWSC's service territory to include the Phase One known as Pulelehua (the "Project") with a total water requirement of 67,200 gpd.

HWSC will agree to expand its service territory to include the Project and provide an average daily demand of not more than 67,200 gpd subject to satisfaction of the following:

- a. Applicant must provide a map outlining the exact area to be included in HWSC's service territory and an exact description of the type and number of units for which Applicant is requesting service.
- b. Applicant must provide proof the County Of Maui approves of HWSC as the source of supply for the service area.
- c. The Hawaii Public Utilities Commission ("HPUC") must approve the expansion of HWSC's service territory to include the Project (the "Service Territory Expansion"). HWSC and Applicant will file a joint application with the HPUC requesting HPUC approval of the Service Territory Expansion (the "Application"). Applicant will reimburse HWSC for all reasonable cost and expenses related to the Application, which is estimated to be approximately \$30,000.00.
- d. Prior to filing the application, Applicant "MAY" be required to sign an Extension Agreement and pay a contribution in aid of construction ("CIAC") determined in accordance with HWSC's Rules and Regulations and at rates approved by the HPUC.

The foregoing is intended to set forth the general terms and conditions on which HWSC would be willing to provide service to the Project. However, HWSC will not have any obligation to Applicant unless and until HWSC and Applicant have executed an Extension Agreement related to service to the Project.

Quality. Service. Value.
