Subject: Hokus Place DEIS

Peter Young

State Land Use Commission

6/8/2015
Ref: Hokus Place DEIS

Aloha,

We do not support this project under the pretext that it's 769 residences will not impact the horrendous traffic situation or that our schools will only be impacted by an additional 156 students as opposed to approximately 1500. We also cannot support any development of this size in that crowded location and without any required financial contribution toward extra traffic lanes on Kuhio Highway and the Bypass other than a left turn lane to road A. The financial impacts of extra police, fire, and educational personnel also will borne by the public and not the developers which is a large problem.

This 97 acre parcel should be kept in it's current agricultural designation until proper infrastructure is in place prior to development.

Stuart Zimmerman

Evelyn Mokihana Zimmerman

Kilauea

mobile: (808) 635-3440
zimmermanstuart2013@icloud.com

Response, 7/10/2017:

Mr. Zimmerman,

Please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai's plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai's goals of becoming self-sufficient.

Also, please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
PUBLIC COMMENTS: DEIS re. HOKUA PLACE, KAUAI
From: Gabriela Taylor, Kapaa, Hi.  June 11, 2015
TO: luc@dbedt.hawaii.gov & info@hookuleana.com

I’ve waded through the dense almost 400 page DEIS, Volume 1 and Volume 2 for Hokua Place. I saw that the developer only responded to those 85 people in the public sector (who made the effort to comment against this zoning change/development), with stock comments, nothing specific, and no answers. However, they did respond directly to some of those commenting from the various offices of the County and State governments. Although water, sewage and storm runoff are important infrastructure considerations to consider, the majority of public comments addressed traffic congestion and how this project will make it unbearable to navigate through, in, and around Kapa’a with another 1600 (or more) cars entering the Bypass Rd, Oloheha Rd and downtown Kapa’a. Don’t forget that there will also be mega-traffic created from two, already approved Waipouli hotels, as well as Coco Palms—all on Kuhio Highway.

I didn’t receive adequate responses to my questions posted in Volume 2, of the DEIS, nor were they answered in the body of Volume 1 of the DEIS. I gave specific examples with time and place of traffic congestion that I have experienced and continue to experience in areas that will be exacerbated by 1600 cars added from Hokua Place. I still want answers.

   a. Kukui St going east onto Kuhio Highway at the traffic light.
   b. Kapaa roundabout on the all of the 4 entries, No, South, East, West which is heavily impacted by the Middle School traffic as well as commute traffic, morning and afternoon and Wed. during the Sunshine market time when it turns into gridlock. What is the solution?
   c. Traffic is frequently backed up on Kuhio Highway between downtown Kapaa and Kuamoo Rd., in both directions, turning the normal 10 minute trip into 3/4 hr., as I have experienced. And at the same time, Bypass Rd. traffic is stopped, or creeping along. What will be done?
   d. It is stated in the EISP that if the Bypass is closed, that Kuhio Highway won’t be able to handle the additional load. Then what?

Note: Another fantasy the developers are promoting is the notion that Rd A will decrease all the traffic problems, not only those generated by Hokua Place. I’m not a road engineer, but I’m astute enough to realize that adding one cut-through road in a development, which is generating 1600 plus more cars to the already heavy traffic is unlikely to decrease traffic congestion in that area.

A Glimmer of Hope from the County Public Works Dept.

Note: The county Dept of Public Works did ask the developer for a new TIAR, to include traffic counts at 2 more intersections. The ratings on all of the intersections impacted by this development were in the range of A to F (flunk) in the EISP. Now referring to p133 in the DEIS Volume 1. p133, #2. Dept of Public Works is asking for more detailed comments in the final EIS & 2.b they ask that the TIAR be revised to update traffic studies at Lehua/Kuhio Highway intersection. 2.c They ask the TIAR be revised with traffic studies for the Lehua St & Oloheha Rd. intersection, as well.

The response from developers in the DEIS is Shocking! They essentially say they did revise it in 2012 and furthermore it doesn’t seem appropriate to ask for additional intersections to be analyzed after the TIAR was already reviewed and finalized in 2012.

What I’m asking the Dept. of Public Works to require from developers

In the 3 years since the TIAR was finalized, the traffic in Kapaa has grown exponentially. Not only should current traffic studies be executed for those 2 new intersections cited by the Dept. of Public Works, but also for the intersection of Ulu Rd & Kuhio Highway, another hot spot. And traffic studies need to be updated for all the other intersections on Oloheha Rd, the Bypass, all entrances/exits on the roundabout as well as the south end of the Bypass onto Kuhio Highway. Three year-old traffic numbers are obsolete and must be updated now with a new TIAR required.
Reality Check regarding new state HDOT Transportation Plan 2035
The new HDOT Transportation Plan 2035, Exhibit 4-4, has revealed plans to build roads in other areas of Kauai, but doesn’t include plans to add any roads/lanes to central Kapaa, add lanes to the northern Bypass, or to build another lane on Kuhio Highway in front of Coco Palms up to the south end of the Bypass. These improvements in the road system are stated as fact by the developer; however, they’re not in writing. Gov. Ige came to Kauai June 8, and admitted that the state DOT is under funded, because essentially there is a lack of money. Would approval be given to Kokua Place prior to guaranteed road expansion? I hope not.

More Evidence—No Plans for Kapaa HDOT Roads even in the STIP!
Please see See p 45 of Hawaii Statewide Transportation Improvement Program (STIP) CURRENT UPDATE, FISCAL YEAR 2011 TO 2014. After reading this outdated “Current Update”, I have totally given up hope for HDOT road building projects to materialize on Kauai. It states: “Currently, HDOT is in the process of updating the STIP for the next 4-year cycle. Priorities and needs, project readiness and eligibility and public opinion of highway and transit projects statewide have been reviewed for inclusion in the next Federal Fiscal Year 2011-2014 (+2) STIP”. When will that be published?

Summary:
1. The state and county departments must require updated (current) traffic data-collected now, for all of the intersections that will be affected by the built-out of nearly 800 dwellings in the Hokua Place Development.

2. HDOT as well as Public Works and the County Planning Dept. need to factor in the 3 already approved hotels in the Wailua Corridor as well as the projected population growth for residents and visitors in the next 20 years and consider that in relation to (non) reality of proposed road/lane building projects before any approval is given.

3. There’s no documentation with a specific road plan, nothing in writing in the HDOT Transportation 2035 Plan, the HDOT STIP, or by the county Public Works Dept. to expand the road system in the area affected by this project... Promises don’t cut it. Even if it does materialize, another lane in front of Coco Palms to the So. Bypass exit/ won’t be enough. Future road plans for Kapaa need to be guaranteed by the county and HDOT so they will be held accountable if it fails to materialize. Sidewalks and bike paths are desirable but won’t decrease the traffic significantly.

Conclusion:
The proposed Hokua Place subdivision traffic will disrupt our rural life style as well as discourage visitors who choose Kauai because of its relaxed pace & natural environment. It will impact travel from the north shore to the airport and add to the impacts of traffic headed north.

See TGI June 12, ’15 column by Walter Lewis “Future development threatens life as we know it in Kauai” where he states: “Hokua Place and Coco Palms would add 3000 cars to the “notorious Kapaa to Lihue traffic congestion.” And he adds that there should be no approval of multi-unit residential development without infrastructure first.

The EIS needs to include social, emotional and community impacts of this development on our lifestyle. Please read all the public comments.
If you do, you will be convinced that this is not the right place or time for the Hokua Place Development.

Please: No Up-zoning for Hokua Place. Roads first, development later!
Response, 7/10/2017:

Ms. Taylor,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
DO NOT APPROVE THE HOKUA PLACE DEVELOPMENT

Hokua Place Development is very damaging to the Eastside of Kauai. Kauai roads cannot handle any more cars from the proposed houses in the Kapaa Area with the Hokua Place Development. Daily Traffic along the main Highway Wailua through Kapaa is horrendous as everyone knows. You are also aware of the major problems getting from the North Shore through this Kapaa Corridor.

New housing cannot be allowed until a better road and bypass is built through the East side of Kauai.

As a resident of Wailua I urge you to do all you can to prevent these houses from being approved.

Marilyn Anne Townsend
7173 Aina Pono Street
Kapaa HI 96743
808-822-0198

Response, 7/10/2017:

Ms. Townsend,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
I am writing to express that the 'Hokua place' development in Kapaa is not a good idea right now considering the major traffic struggles we already face. Unless a feasible solution to the traffic problem is presented, the development should not take place.

Thank You,
Sincerely, Carey Tinsley
Kapaa, Kauai

Response, 7/10/2017:

Ms. Tinsley,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Comments on the proposed Hokua Place development in Kapa’a, submitted to:
Peter Young (developers): info@hooka-gana.com
State Land Use Commission: luc@dbedt.hawaii.gov

Anne Thurston, June 18, 2015

I was one of the nearly a hundred people who objected to the zoning change from Agriculture to Urban Land Use, which is necessary for the Hokua Place project to go forward. Along with large numbers of others in the Kaua’i community, I do not believe that the concerns we expressed have been addressed. The Draft Environmental Impact Statement (DEIS), published online on May 8, makes only a few helpful changes regarding potential infrastructure problems, such as water and storm runoff. Most significantly, it does not realistically address our most serious and very significant concern: severe traffic congestion.

We have studied the section in the DEIS on traffic related measures, particularly those outlined on pages 130-137, and we find them to be wholly inadequate. We are aware that the Kaua’i County Public Works Department has asked the developers to make several changes to its Traffic Impact Assessment Report, and also that the Hawaii State Department of Transportation has plans in place to address some of these issues. However, even if these plans are implemented in a timely manner (which is not assured), we do not believe that they will be adequate to address the major problems that this development would cause for the local community. The suggested changes, including repaving roads, adjusting the timing of various traffic lights, and adding another south bound lane from the Wailua Bypass exit on Kuhio Highway, do not address the major issue of severe traffic congestion. Nor does the ‘2035 Transportation Plan for Kaua’i District’ suggest significant and adequate road improvements to alleviate traffic.

The Hokua Project proposes 86 single-family lots and 683 multi-family units in townhouse units, or 769 family homes. Assuming the current Kauai average of 2.99 persons per household from the last census, we are talking about adding approximately 2,300 people to the Kapaa area population. The data contained in the ‘2012 Kauai Transportation Data Book’ demonstrates that Kauai has the highest ratio of registered vehicles to population in the state and is the only county where there is more than one vehicle registered per person. Even taking a conservative estimate of two vehicles per household, the proposed project would add over 1500 vehicles to our roads in the Kapa’a area and would result in severe congestion, making it increasingly difficult to navigate in and around Kapa’a or to enter the the bypass road.

We understand that developer has denied the need for significant changes, saying that traffic studies done in 2012 are adequate and that ‘traffic impacts due to the project are not considered significant.’ Page 18 of the DEIS report notes that ‘The Kapa’a By-Pass Road furnishes an alternative route for those traveling between the North Shore and Lihue. Contractor roads link the By-Pass to Kuhio Highway providing alternatives to reach commercial areas along the coast and improving circulation within the valley. Traffic is minimized and dispersed through the road network.’ This statement alone indicates the inadequate nature of the DEIS and how badly out of touch the developer is with the realities of traffic congestion in the Kapa’a area.

We feel that the statements in the DEIS are unrealistic and that they gloss over substantial potential problems. The developer’s own Traffic Impact Assessment Report, written in 2012, as part of the Draft
Environmental Impact Statement for the HoKua Place development recognised that the traffic flow through the Kapaa roundabout and the intersection of the Kapaa bypass and Kuhio Highway were already at failing grades for level-of-service or traffic flow. Little or no traffic mitigation has been done since that report was written and the traffic has grown noticeably worse over the last three years. Moreover, the developer’s Traffic Impact Assessment Report did not take into account the recently approved projects in Kapaa at Coco Palms, the Coconut Beach Resort, and the Coconut Plantation Village.

This Hokua development should not go forward unless and until there are sustainable solutions in place to address traffic issues and infrastructure issues. To build an additional 769 housing units before there is evidence that the traffic impact can be realistically and concretely addressed is a highly dangerous and unacceptable proposition that is of grave concern to our community. We feel that the needs of the people of Kaua‘i, rather than profit for developers, should be the determining factor in determining the adequacy of the DEIS.

We strongly urge the State Land Commission to reject the DEIS.

---

Response, 7/10/2017:

Ms. Thurston,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Aloha:
Please fix the existing roads and the traffic jams before allowing new development.
Mahalo,
teds

Response, 7/10/2017:
Mr. Steinberg,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
I'm writing to express my total opposition to the proposed Hokua Place. I do not know what they mean by "multi-family units" but assuming at least 2 families in each plus single family homes, you are talking about a minimum 1,452 families. If each use a minimum of 2 cars each (and for some it will be more than that) you are adding at least 2,904 cars to the overburdened Kapaa area. Then you need to account for all the additional school children. Where are all these people going to work? I still know people struggling to find jobs. Sure a lot of people want to move here, but I don't see why we need to accommodate them. Look what has happened to Oahu (the state known for high rises and the worst highway in the US). People live here because we are not like Oahu. Tourists love it for the same reason. The major complaint I hear from tourists is about the congestion in Kapaa.

Please turn down this proposal and keep the ag land or we will no longer be called the Garden Isle.

Mahalo,

Heather Riggins
Northshore

Response, 7/10/2017:

Ms. Riggins,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Also, please refer to the EIS for the need for local affordable housing. The masterplan has included plenty of green space and opportunity for outdoor spaces. Kauai is protected from becoming like Oahu through zoning regulations.

Thank you for voicing your concerns,

Ron Agor
Kapaa traffic is already horrendous. Please DO NOT build the Hokua Place Development until the traffic situation is rectified.

Thank you,
Patricia Riedel
4344 Hokualele Road
Anahola, HI 96703
808-635-7625

Response, 7/10/2017:

Mr. Riedel,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Dear Committee;

As you consider HoKua Place development in Kapa’a I am sensitive that you will have to balance housing needs against the impact on the community. I know you are well aware of the traffic issues in Kapa’a. Plus there are three new resorts soon to be built.

It is already a nightmare to get through Kapa’a enroute North or South. The round about is the most obvious back up. The High Way and the By Pass are also at issue. Just getting out of the Safeway parking lot can be a challenge. These new residents will have to get to work, to school, to appointments and to the beach as do the rest of us. Tourist will resent being stuck in traffic and will choose a neighbor island for their next vacation. Traffic is already a problem and a problem that is about to get much larger. Admittedly I’m not fond of so many new residents in my neighborhood but this is largely because the issues, like traffic, are not being addressed.

Moving forward I do not think it unreasonable to require the developers to help pay for the infrastructure to support this project. We should have a traffic solution budgeted before approval and under construction before the project can begin.

Thank you for considering these issues in making your decision.

Respectfully,

Jean Rhude
Kapa’a resident

Response, 7/10/2017:

Ms. Rhude,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
The traffic situation here on the island is already of major concern adding more to our environment is setting up a scenario for safety issues that will affect residents and visitors alike. The area in question already has major traffic issues. A more intricate study is needed before the go ahead is given.

Let’s stop looking myopically and looking at the bigger picture here. The Traffic situation changes drastically every year here - we can’t rely on reports from 2012 to adequately give a clear picture of what is going on in the proposed area. Proper infrastructure must be in place - there has been no assurance of this to this point...

Take a step back, e-look at the situation before compromising a good portion of our islands residents.

Regards

Response, 7/10/2017:

Ms. Riedel,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed. At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer.

Thank you for voicing your concerns,

Ron Agor
As a resident of Kauai, I already suffer with the heavy traffic and frequent long delays in the Kapaa area. Allowing the HoKua Place development would only serve to exacerbate that situation. It should NOT be allowed to proceed.

Allan Rachap  
1714 Keonilou Pl.  
Koloa HI 96756

Response, 7/10/2017:

Mr. Rachap,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
To Peter Young, developer, and State Land Use Commission:

In the face of intensive public objection, the critically unaddressed traffic and infrastructure issues, the paucity of proposed solutions to the above, and inadequate response to DEIS questions, we respectfully plead with you to stop the proposed development known as Hokua Place in Kapaa. Suspension of this project is essential to prevent total dysfunction of traffic in the Kapaa area and to retain the trust of residents in our County government. Thank you.

Laurie Quarton
Kapaa

Response, 7/10/2017:

Ms. Quarton,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Anyone who has lived on Kaua'i for a number of years can tell you that the Kapa'a corridor is the worst traffic bottleneck on the island. Recently, it took me 2 1/2 hours to drive from Kilauea to Koloa, most of the time spent not moving at all, then occasionally moving by inches til the next time traffic stopped. This area is already the most heavily developed on Kaua'i. Additional thousands of residents, all with cars, would bring traffic to a standstill, use up more agricultural land and the ability to provide for food locally. Only 24% of the proposed residences could conceivably be afforded by local families on an island with bloated home prices. We who live here would bear the many ongoing costs of the proposed development, while developers walk away with millions and most of the residences are purchased by the wealthy.

Please do not, do not approve this project.

Sincerely,

Eve Powers
5200 Pa'anau Rd.
Koloa

Response, 7/10/2017:

Ms. Powers,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Sent from my iPad. We don’t need more house until we improve the roads and all the infrastructure involved. We’re just shooting ourselves in the foot and you developers know what you are doing and just want to get your money and get out. You make me sad! Scott Pomeroy

Response, 7/10/2017:

Mr. Pomeroy,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Aloha,

I don't approve on the proposal for the new development at HoKua place. As a kapa'a residence for 28 years, traffic has not improved. Adding this new subdivision would increase the traffic.

Ashly
Kapaa

Response, 7/10/2017:

Ms. Poblacion,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor

Subject: No HoKua!

The HoKua and the Coco Palms projects are ridiculous. The infrastructure does not exist to warrant them. The east side traffic is already beyond capacity, and those in "power" are authorizing adding to the problem? Why aren't existing cane roads upgraded and used? This could be worked out if we had decision makers with vision instead of short-term greed goals. Please. No HoKua. Please listen to the aina. It is yelling.

Thank you for voicing your concerns,  
Ron Agor
Dear State of Hawaii Land Use Commission,

As long term residents of Kapaa, we wish to renew our opposition to the Hokua Place development, Phase 2, as currently proposed.

In response to several Letters to the Editor in "The Garden Island" newspaper and statements in the Hokua Place project DEIS claiming that the traffic impact from the proposed 769 home development in Kapaa would be "minimal", my wife and I spent two recent mornings near the Kapaa Middle School, while school was still in session, watching the existing traffic flow. I also spoke to a school administrator and one of the safety patrol officers about their thoughts. Both were concerned about the potential increase in traffic.

We observed that the existing traffic can be quite dense already, even without the likely addition of 1,500 plus vehicles to the morning and afternoon rush hours through the Kapaa corridor. We also noted that most of the student "drop-off" traffic to the Middle School is actually coming up hill from the roundabout and turning left across the downhill traffic to enter the school parking lot. Coming back out of the parking lot, most vehicles turn right, downhill, back towards the roundabout.

The flow of traffic through the school parking lot itself appeared to go smoothly.

We also noted several parents dropping off their children along the side of the road, near to where the entrance to the proposed Hokua Place "Road A" is supposed to be located. Both the school administrator and the safety officer told me independently that there have been several close calls along that section of the road. The school is currently building a fence, partially intended to stop this practice and force the parents to drive onto school grounds to drop off their children where it is relatively safe.

If the Hokua Place Project is built as proposed, without additional road improvements being made first, parents dropping students off at the Middle School on their way to work will have to enter the school parking, then exit and turn right, downhill, to the roundabout. If they try to turn left when exiting the school grounds, they will have to turn against both the downhill traffic and parents turning left into the parking lot, then again cross the downhill traffic to enter "Road A". Since that entrance to "Road A" is at a curve in the road, the potential for accidents is significant. I believe most parents will instead choose to turn right coming out of the school grounds and end up in the heavy traffic at the roundabout.

It is difficult to see how the impact of adding another 1,500 plus vehicles entering the Kapaa corridor during rush hour, at what is already one of it's most congested locations can be considered "minimal". The proposed Hokua Place Development has a lot to recommend it, but until the County and the State can improve the existing traffic flow through Kapaa's corridor, changing the existing designation for the property involved from "Agricultural" to "Residential" would be premature.

And, of course, the developer's TIAR, written in 2012, did not take into account the recently approved projects in Kapaa at Coco Pains, the Coconut Beach Resort and the Coconut Plantation Village. In fact, the TIAR specifically states "...we are not aware of any approved projects in the vicinity that will impact traffic conditions along Kapaa's Bypass or Oloheana Road before the design year of this project." (paragraph 3, page 124, DEIS)

At a minimum, the developer should be required to revise the TIAR section of the DEIS to take these approved projects into consideration.

To illustrate our point, we have posted videos on YouTube that can be seen at:

https://youtu.be/RRZP2vVTaWJ

Respectfully Submitted, Please confirm receipt:
Bill and Sea Peterson
Kapaa

References:

Response, 7/10/2017:

Bill and Susan Peterson,

Your concerns for the safety of the school children have been noted. We will be considering appropriate design solutions for that area.

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Dear State of Hawaii Land Use Commission,

As long term residents of Kapa’a, we wish to register our opposition to the HoKua Place development, Phase 2, as currently proposed. Although there is much to like about the project, we believe the development will have a significant negative impact on the flow of vehicular traffic through the Kapa’a Traffic Corridor.

The existing Phase 2 plans call for 86 single-family lots and 683 multi-family units in 57 townhouses. That is a total of 769 family homes. Assuming the current Kauai average of 2.99 persons per household from the last census, that would be approximately 2,300 people added to the local Kapa’a population.

According to the final version of the “2012 Kauai Transportation Data Book”, the County’s own “Multimodal Transportation Plan”: “Kauai has the highest ratio of registered vehicles to population in the state, and is the only county where there is more than one vehicle registered per person.”

That would indicate those 2,300 people could have as many as 2,500 vehicles. That number seems exceptionally high. A more realistic estimate would seem to be two vehicles per household, or 1,539 vehicles added to the flow of traffic through the Kapa’a corridor.

The developer’s own Traffic Impact Assessment Report (TIAR), written in 2012, as part of the Draft Environmental Impact Statement (DEIS) for the HoKua Place, Phase 2 Development, suggested a much more modest estimate of an additional 394 vehicles will be added to the peak morning rush hour and 487 to the afternoon peak rush hour. The TIAR also noted that the traffic flow through the Kapa’a Roundabout and the intersection of the Kapa’a Bypass and Kuhio Highway were already rated “E” and “F” (failing grades for Level-of-Service or traffic flow). Little or no traffic mitigation has been done since that report was written and the traffic has grown noticeably worse over the last three years.

Considering the Kapa’a Roundabout already resembles a parking lot during these peak periods it is difficult to see how even these optimistic numbers could be sustained.

And, of course, the TIAR, written in 2012, did not take into account the recently approved projects in Kapa’a at Coco Palms, the Coconut Beach Resort and the Coconut Plantation Village. In fact, the TIAR specifically states “…we are not aware of any approved projects in the vicinity that will impact traffic conditions along Kapa’a Bypass or Olohena Road before the design year of this project.” (paragraph 3, page 124, DEIS)

At a minimum, the developer should be required to revise the TIAR section of the DEIS to take these approved projects into consideration.

The TIAR also projects minimal traffic impact on the intersection of Kuhio Highway and the Kapa’a Bypass — an intersection already rated “F” within their own report. Since most of the employment on the island for those 2,300 new Kapa’a residents is in the Lihue area, it is difficult to understand how the most direct route between HoKua Place and Lihue could not be significantly impacted.

This is not just a traffic issue. Since Kapa’a houses the greater portion of the island’s population, much of it within the low lying designated Tsunami Flood Zone, this corridor is an integral part of the Tsunami Evacuation Plan. Having
inadequate and congested roads on a daily basis is one thing. Having them during a major disaster is another. The potential for loss of life is staggering.

This issue is barely addressed in the current Draft Environmental Impact Statement. The attitude of the developers, as reflected in the TIAR, appears to be “The traffic situation in Kapa’a is so bad now, we can hardly make it much worse.” They have proposed no real solution to the existing traffic congestion, yet wish to build an additional 769 housing units that would feed directly into the most congested section of the corridor. They appear to be depending upon the State and the County to take care of the traffic problems along the Kapa’a corridor.

Even the County of Kauai has evidenced some misgivings about the traffic impact from the project, as noted in the “Comments from County of Kauai Department of Public Works and Responses...Dated June 6, 2014...” quoted on Page 133 of the Hokua Place DEIS.

Approval of this project under the current DEIS, with no additional significant improvements to the flow of traffic is unacceptable.

As a reminder to the members of the Land Use Commission, We have attached two still photos and included a Youtube link to a recent video of the traffic congestion on a relatively normal Wednesday in Kapa’a at the traffic roundabout -- the very place that would see the most impact from the new development. We believe the video speaks eloquently as to the traffic flow problem we already have.

“HoKua Place Section 343-5e HRS Draft Environmental Impact Statement”

Response, 7/10/2017:

Bill and Susan Peterson,

Again please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed. We appreciate your concern for emergency situations and believe the updated TIAR provides those considerations.

Thank you for voicing your concerns,

Ron Agor
Dear Mr. Young,

As long term residents of Kapa'a, we wish to register our opposition to the proposed Hokua Place development. As proposed, the development will have a significant negative impact on the flow of vehicular traffic through the Kapa'a Traffic Corridor. This section of State and County roads already has a serious problem with traffic flow. Several of the existing intersections were already rated "F" during the Traffic Impact Assessment Report done in 2012. They have not improved since then. This is not just a traffic issue. Since Kapaa houses the greater part of the island's population, much of this corridor is also part of the Tsunami Evacuation Plan. Having inadequate and congested roads on a daily basis is one thing. Having them during a major disaster is another. The potential for loss of life is staggering.

This issue is barely addressed in the current Draft Environmental Impact Statement. The developers, HG Kaua'i Joint Venture LLC, have proposed no real solution to the existing traffic congestion, yet wish to build an additional 760 housing units that would feed directly into the most congested section of the corridor. Approval of this project under the current DEIS, with no additional significant improvements to the flow of traffic is unacceptable.

We have included a Youtube link to a recent video of the traffic congestion on a relatively normal Wednesday in Kapa'a at the traffic roundabout -- the very place that would see the most impact from the new development. We believe the video speaks eloquently as to the traffic flow problem we already have.

Response, 7/10/2017:

Bill and Susan Peterson,

Again please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Attention: State Land Use Commission Peter Young (developers),

The majority of DEIS public comments have not been answered regarding traffic congestion and infrastructure needed before development approval. Even the County Department of Public Works agrees. Comments from County of Kauai Department of Public Works and Responses, dated June 6, 2014, quoted on Page 133 of the Hokua Place DEIS:
"Unfortunately, until the issue of traffic congestion can be adequately addressed, it is a development that the Eastside of Kauai cannot afford. If it is allowed to go forward, then it will be clear that money — not the needs of the people of Kauai — speaks loudest to our elected officials." Ref: Hokua Place Section 343-Se HRS Draft Environmental Impact Statement.

769 housing units are planned, and with most families owning more than one vehicle, that means approximately 1500 more cars in the area. The existing plan to pave roads adds significant traffic delays, and does not help throughput. Traffic congestion is already extremely burdensome for current paving and road improvements, costing lots more for night work. The new hotels planned in the Wailua corridor would also make delays intolerable. Together, these projects will downgrade Kauai for residents and tourists. The county will pay the cost for infrastructure if they do not demand it of the developer in advance. This means roads, expanded septic systems, expanded school programs, fire and police protection and other public services. How can the county consider accepting this proposal when it hasn’t even answered the most basic road infrastructure needed?

Thank you for your reconsideration.
Lorraine Osterer, Koloa resident, who already finds traffic too much to get past Kapaa.

Response, 7/10/2017:

Ms. Osterer,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor

Peter Young, and others making decisions about new proposed development,

Have you sat in the line of cars on the road (Kuhio Hwy.) north of the Wailua Bridge heading south? Also, going north is not any easier. We do not need additional cars (800+) which will come with the development.

Please do not grant "OK" for development until the present traffic problems are solved.

Mahalo nui loa,
Caroline Okasako

Response, 7/10/2017:

Ms. Okasako,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Dear Members of the Commission:
Please halt the development of HoKua Place in Kapaa, Kauai.

It is an insane idea to add homes in that area of Kapaa, and if you had to drive through it daily as many of us do, you would understand what I mean.

1. Kapaa’s traffic is legend......in a horrifying way.
   Personally, I often drive from the Wailua Homesteads down Kuamoo to the highway and then to Lihue to shop during the daylight hours rather than sit in traffic in Kapaa, wasting time and getting more and more irritated.
   Five years ago, some visitors commented to me that they would never again stay in Kapaa or North of Kapaa because, they said, the “traffic is murder!” (their words.)
   My point: traffic is not only affecting us, the residents of Kauai.
   Kapaa traffic has a negative effect on tourism as well.

2. We do not even have sidewalks most places on Kauai.
   The kids have to walk or ride bikes along the roads to school.
   Oloheina Road, where HoKua place would be built, is so hazardous that bike riders have been sent head-over-heels into roadside ditches as people come down the hill and are unable to see people on bikes in time to stop or slow down.
   Oloheina is a county road, poorly engineered for today’s needs. It is winding, with poor visibility along its many curves.
   The increased traffic plus the increased number of children on the road is a setup for disaster.

The cost burden to the County for improvements to the roads, sewers, water supply, utilities, added to the loss of tourism due to the terrible traffic adds up to an economic disaster for Kauai.

Please, please, please......either halt or re-locate the HoKua development.

Mahalo,
Mary Mulhall, Kapaa resident
1210 Crossley Rd.
Kapaa, Hi, 96746
Response, 7/10/2017:

Ms. Mulhall,

Your concern about adequate sidewalks has been noted and we will review the issue for the master plan.

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
If you are really considering this project without having first resolving our current traffic problem, you are showing the residents & every visitor your lack of intelligent planning. There are some very knowledgeable people visiting who are speaking out about Kaua‘i’s seemingly ridiculous way of planning infrastructure. One man, a firmer Utah mayor, had some strong opinions & very creative ideas; our mayor declined to talk with him, he was incredulous as he had revitalized Ogden with transportation & planning expertise. Don't embarrass yourself, but more importantly, don't sell out our very unique island and its people.

Aloha...

Bonnie Morris
Anahola homeowner & 36+ year resident watching the aina being sold off.
Aloha...

Response, 7/10/2017:

Ms. Morris,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
To Whom It May Concern:

Regarding the upcoming decisions as apply to HoKua Place Housing Development, Coco Palms Resort, and the 2 other pending resort projects in the Waiula corridor.

It is unconscionable for the Land Use Commission, Planning and/or Building Departments to even consider allowing any of these projects without a coincidental, actionable plan for expanding Kuhio Highway to 4 lanes between the south end of the Kapaa bypass and the Waiula River Bridge. Indeed, I'm sure an audit would show that more has been spent thus far coning the contraflow lanes every day than it would have cost to widen and pave the highway in the first place.

In addition, it helping the local economy is the true goal of any of the projects, then the work should ALL be performed by Kaua‘i-based contractors/workers. The this might lengthen the time line for completion, the local economy would be more sustainably served, and local people might in fact be able to afford some of the homes or visit the resorts they are building.

Respectfully,

Jess Montgomery

Response, 7/10/2017:

Ms. Montgomery,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Aloha,

Considering the increasingly burdensome traffic in the Kapaa area, the Hokua Place project will severely exacerbate our dire problems. The massive amounts of materials needed and then using them for construction here will make an unacceptably substantial contribution to global carbon dioxide pollution, not to mention erosion, increasing our already desperate climate situation.

The Hokua Project proposes 86 single-family lots and 683 multi-family units in townhouse units, or 769 family homes. It has been estimated that as much as 1,500 vehicles or more could be added to our roads in the Kapaa area, resulting in overwhelming congestion on our already taxed road system.

It is outrageous that the developer has denied the need for significant changes in road construction, saying that traffic studies done in 2012 are adequate and that traffic impacts due to the project are not considered important. It is obvious that the traffic impacts of 1,500 vehicles added to our roads would actually be quite significant!

Further, the developer’s own Traffic Impact Assessment Report, written in 2012, as part of the Draft Environmental Impact Statement for the HoKua Place development recognized that the traffic flow through the Kapaa roundabout and the intersection of the Kapaa bypass and Kuhio Highway were already at failing grades for level-of-service or traffic flow. Little or no traffic mitigation has been done since that report was written and the traffic has grown noticeably worse over the last three years.

It is clear that the substantial potential problems of this massive development will contribute, inevitably, to the lowered quality of life on our tiny garden island.

We implore you to urge the State Land Commission to reject the DEIS.

Thank you for your attention to this, and to the numerous other letters you have received in opposition to this proposed development.

Aloha,

Richard (Diamond) Moll

P.O. Box 113

Kapaa, HI 96746

Response, 7/10/2017:

Mr. Moll,

Thank you for voicing your concerns,

Ron Agor
Until new routes and wider roads are put in, NO NEW DEVELOPMENT SHOULD BE PERMITTED.

TRAFFIC IS AT A CRISIS NOW AND BY ALLOWING MORE UNITS TO BE BUILT UNDER THE PRETENSE THAT IT IS GOING TO GIVE US MORE AFFORDABLE HOUSING IS COMPLETELY WRONG!! Any unbiased, neutral EIS that is done would HAVE TO SHOW THAT INFRASTRUCTURE MUST BE PUT IN PLACE BEFORE BUIDLOUT BEGINS.

PLEASE DO NOT LET THIS PROJECT OR ANY OTHER PLANNED PROJECT BEGING UNTIL INFRASTRUCTURE IS FIRST PUT IN PLACE.

GLEN MICKENS
5920 KINI PLACE
KAPAA, HI 96746
822 0998

Response, 7/10/2017:

Mr. Mickens,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
There is no way that this new development of 800 units should be approved UNTIL INFRASTRUCTURE IS SOLIDLY IN PLACE TO TAKE CARE OF THE ADDED CARS AND PEOPLE.

I have been on that bypass road (I use it at least twice a week or more) when traffic is backed up from the roundabout to Kuhio highway and obviously a potential 1600 more cars exiting on Kuhio Highway will only exacerbate the problem.

Not just this project but ALL AND ANY NEW PROJECTS’ should be mandated to improve our infrastructure before construction begins or put a moratorium on building until new roads are built to carry the traffic.

Sincerely,
Glenn Mickens

To Whom It May Concern:

I am a psychotherapist in private practice. I reside on the East side of Kauai island in the Wailua House lots. This used to be the perfect commute until traffic increased and the waste management site on the corner of the highway and Hale Ilio Road began to regularly malfunction; causing quite an unpleasant smell to overwhelm the lengthy wait at this light.

My clientele include adults who are unable to leave their homes due to medical and or mental health issues. To that end, I have chosen to bring my services to them. That means that I drive a great deal throughout the weekdays. As recently as two years ago, I was able to drive from the Wailua House lots into downtown Lihue within 15 to 20 minutes; these days I have to budget my time to at least a half hour or more for the same distance. In the afternoons, I am often in the Wai poli area and find that the current traffic is at a virtual standstill in both directions, often backed up all of the way into Kapaa proper in one direction and the stop light at Coco Palms (the entrance to Wailua Homesteads. In the past two years, this snarl of traffic has included the bypass road.

The idea of adding more long and short term accommodations in the Kapaa area without having first completed extensive expansions to the infrastructure, both in terms of actual roads and upgrading the waste management systems currently in place is frankly ludicrous. Yes, housing is at a premium but a rush to put housing that is not affordable to most current residents on this island without a well thought out long term plan to address the current burdens placed on the existing systems demonstrates a short sited, greedy and rather cynical perspective.

This year, Kauai beat out the other islands in this state for increases in visitor presence and spending. That is due in great part to the rural nature of our island. Becoming Maui or Oahu by thoughtlessly over building to simply make developers wealthy shoots the goose who is beginning to lay golden eggs for our lit island.

Take your time and complete studies that provide you with answers based in reality.

Thank you,
Joni Lesser-Benton M.S.W., L.C.S.W.
Joni Benton [mailto:halawaihale42@hawaii.rr.com]
Response, 7/10/2017:

Ms. Lesser-Benton,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
This is a terrible and inappropriate idea. I'm a former real estate developer and I doubt that you see yourself as a creator of misery, which is what will happen if this project is built. Just try to drive in Kapa'a any afternoon and you will see.

Be kind whenever possible. It is always possible. -The Dalai Lama

Response, 7/10/2017:

Ms. Kenny,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed. It would be kind of us to provide adequate housing to the people of Kauai.

Thank you for voicing your concerns,

Ron Agor
Hi Peter, State Land Use Commission, and Planning Department,

I am writing this letter in response to the proposed HoKua Development in Kapaa. I have lived in Kapaa for 20 years and watched the traffic increase to the point of currently being horrific. I have had to change my lifestyle around the traffic. Please do not change the zoning on the proposed parcel from "agriculture" to "urban zoning". We need more agriculture on this island, which is why it was zoned for farming, as we are overly dependent on food shipments, which is not a good position to be in when there is a crisis, such as a dock strike in California. We already have an overloaded infrastructure, ie our schools, water, etc. why make it worse? Don't sell out to Greg Alllen and his Mainland investors, and add1600 cars and at an average of 4 people per household 3000 people to the already overloaded Kapaa corridor. You are all in excellent positions to help this island, please don't add to its destruction. Infrastructure first, moratorium on building in the most congested areas, until the infrastructure has been upgraded to the point where it can handle it. Think less cars, less crowding in schools, clean air, clean water, organic farms, industrial hemp fields! Have respect for this aina a and it's people!

Much Aloha,
Abigail Jones

Response, 7/10/2017:

Ms. Jones,

Your concerns have been noted. Please refer to updated Traffic Impact Analysis Report released in May 2017 for solutions to Kapaa circulation problems.

Also, please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai's plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai's goals of becoming self-sufficient.

As shown in the EIS, Kauai is in need of affordable housing done correctly.

Thank you for voicing your concerns,

Ron Agor
Aloha,

I am writing to share my concern about this project. While I recognize and appreciate the need for housing on Kauai, I do not believe the proper infrastructure is in place (nor will it be in place by the time development is completed) to support the project at this time. The traffic in Kapaa -- with the approval of the Waipouli Hotels, the Coco Palms Hotel, and then the traffic from this development -- would be severely impacted, to put it mildly. This affects people's lives in major ways -- not only residents, but also tourists. Please keep this land in it's current agricultural designation until the proper infrastructure is in place prior to development.

Sincerely,

Penny Heiple
Kalaheo, HI

Response, 7/10/2017:

Ms. Heiple,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Dear Peter Young
I do not approve of Hokua Place subdivision being built in Kapaa. I live in Kapaa and the traffic is very difficult as it is, and during tourist season, Kapaa comes to a total stand-still. Until the traffic problem is improved, we cannot with good conscious approve any more large subdivisions to be built in Kapaa. This subdivision is not being built for the reason to make Kapaa a better place! Please use your power to make Kauai a better place, not worse!
Thank you,

Thank you for voicing your concerns,

Ron Agor
Aloha,

I live right down the road from the proposed location of the Hokua Place Development. This is not a good idea. Traffic is already a crazy nightmare. Right now this is a country area. Building this there would start to change all that. Please consider all of us who live and work in this area and ditch this plan. Thank you.

Rebecca Gorsline
Kapaa, Hi

Response, 7/10/2017:

Ms. Gorsline,

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor
Dear Members, Land Use Commission
   Members, Hookuleana EIS Co and Mr Peter Young
   Ms Marie Williams, Kaua‘i County Planning Dept
   Kaua'i County Council Members

Mr. Young, thank you for your email response to my 1-22-15 EISPN email regarding HoKua Place. You touched on many of my concerns of how this development would impact Kaua‘i Island, its land and its citizens. Traffic, Affordable Housing, Problems with Access Into and From HoKua Pl, Construction Waste, Ample (not just adequate) Sewage Treatment, Abundant Clean Water Supply, Pedestrian (especially school children) Safety, School Capacity. I also want to reiterate the impact of "enormous density" (my last paragraph) which would result in major infrastructure stresses, and I hereby add, environmental stresses.

On 12-27-14 Mr. Greg Allen (Developer) presented HoKua Concept Plan at Wailua-Kapa‘a Business Assoc meeting. He calls Kapa‘a a "City" and an "Urban" area, and desires a zoning change from Agriculture to Urban Land Use. His plan shows an 800+ dwelling subdivision.

On Wednesday, May 27, 2015 between 2:30 to 3:15pm (a 45 minute interval) a citizens' vehicle count was taken to grasp awareness of road usage in vicinity of Kapa‘a Middle School (KMS) / Kapa‘a Bypass Rd / Kapa‘a Roundabout / Kapa‘a Farmers’ Market (KFM).
To begin, Wednesdays, KMS dismisses 2:55pm. KFM begins 3:00pm.

Two counters, one situated across KMS entrance on Oloheha Rd. 60 vehicles parked on grounds (i.e. personnel, visitors). From Mauka (mountain) 23 vehicles entered School. 48 vehicles exited and drove Mauka. 236 non-school vehicles drove directly Mauka.

From Makai (oceanside) 35 vehicles entered School. 44 vehicles exited School driving Makai. 192 non-school vehicles drove directly Makai.

Counter #2 situated adjacent to Kapa‘a Skate Rink. 251 vehicles (including at least 6 School buses) drove from Mauka (Oloheha) into Roundabout. 248 vehicles entered Roundabout from South Entrance Bypass Rd. From the Roundabout 84 vehicles drove onto Kahau Rd where KFM, Police Station, Park, etc are located, going against traffic from Kukui and Lehua Sts. This number does NOT include any vehicles entering Kahau Rd from Kukui and Lehua Sts.

We needed 1-2 more persons to tally to gain fuller understanding of magnitude of traffic numbers. There was almost steady stream of vehicles from North Entrance Bypass Rd (including Malu St) entering Roundabout. These were not tallied, as vehicles from Kukui/Lehua Sts were not, neither vehicles traveling South on Bypass Rd, an important # to have since HoKua Pl project plans an Entrance/Exit on that Road.

Tallying, as it was, is inexact. Traffic at times extremely intense. At moments the jam was so full, only 1 vehicle could go. Worse yet, sometimes NO vehicle moved. This happened when vehicle from Roundabout wanted to turn Left on to Kahau Rd (KFM) and vehicle leaving Kahau wanted to turn Left on to Kukui.
The State Dept of Transportation (DOT) identified at least 2 Kapa’a intersections they score a Level of Service F. (LOS) F = severe congestion with stop and go conditions, what I just described above!

Another potential serious traffic hazard is the Main Rd through HoKua Pl designed to exit West on to Oloheana adjacent to KMS's parking lot. Equally compelling to resolve is the 3-way intersection where drivers on Ka’apuni have a blind roadway to their Right and drivers on Oloheana must negotiate a steep upward incline.

Kaua’i County Public Works Dept, in their "2035 Transportation Plan for Kaua’i District" plans only to repave existing roads and add a Southbound lane from Wailua Bypass exit, fronting Coco Palms to Kuamo’o Rd. Think about it! 800 - 1600+ vehicles owned by HoKua Pl occupants, combined with cars from 2 recently approved hotels in Waipouli, plus our existing traffic problems, would certainly put Kaua’i traffic right up there with Oahu’s traffic woes.

In the face of HoKua Place's "enormous density", Kaua’i Island's infrastructure, in my opinion, is seriously lacking. To avoid further sewage problems, shouldn't HoKua Pl have a plan for their own septic systems? For this many dwellings, septic systems must be a minimum requirement! Mr. Allen informed us raw sewage/effluent would travel all those miles to Lydgate Sewage Plant. It seems foolhardy, to me, for the County Wastewater Dept to go along with this plan. Kaua’i County wants to require residences with out-dated cesspools to install septic systems upon their sale. To not do so would result in environmental degradation. I think HoKua Place needs to take care of its own waste. The services of the Waste-water station at Kuhio Hwy/Hale’ili’o St and the Wailua Waste Water Treatment Plant will already be in high demand once the 2 new Waipouli hotels are hooked up.

At present this 97 acre property is designated "agricultural". Until traffic impacts and environmental impacts are responsibly addressed. I think a change in zoning should not take place.

June 2, 2015

State Land Use Developers.
It seems that the State of Hawaii Land Use Dept should be able to come up with positive developments that can improve the life of the residents and encourage Visitors to come and enjoy Kauai. The visitors do not want to spend their time in a traffic jam.
The present traffic situation on Kauai indicates, without a doubt, that the roads and infrastructure are not ready for the proposed Hokua Place Subdivision.

The roads are maxed out right now with the number of vehicles in the Kapa’a area. As a resident of the Wailua Kapah Kapaa area for almost 40 years, I have seen a lot. Never has the situation been this serious.

The condition of the roads that our people are using daily to get their family members to school and work are not being properly maintained. Actually some of the roads are extremely unsafe since the yellow lines are worn down and in many of the most crucial places they are totally worn away. Reflectors that were once in place are long gone. There are areas where there are no signs indicating a rock/earth embankment dead ahead on unlit heavily traveled roads. There are signs that are not visible due to vegetation or fading.

I actually live near the proposed subdivision and I have been experiencing the traffic congestion, the slow ‘crawl’ through Kapa’a, the dead stop when there is an accident, and the ‘bowling pins’ along Kuhio Highway.

It is only lately, in the last year or so, that I have seen many drivers stuck in a line of cars, knowing they will not get to Kauai in time to do their very important businesss. I’ve seen them give up and do a U turn in despair. Twice last month I did exactly that. Once on Kuhio Highway, and once on the Bypass. As I turned around heading back to the round about, from a dead stop on the bypass, I thought, “Well, at least I can go to the bank here in Kapaa”. When I got back to the round about and got onto Kuhio Hwy I realized the traffic was not moving well enough to even accomplish that. This is not OK.

We must stop developing until all necessary related concerns have been addressed.
Stop putting the cart before the horse. Kauai needs to formulate reasonable, attainable, comprehensive, consciously designed plans taking into consideration all aspects including our community and the safety of our people.

Now is NOT the time for more subdivisions.

Sincerely,
Norcon Dougherty

Aloha,
I am adding my protest to the other voices of Kauai who do not want more housing development in the Kapaa area until the necessary infra-structure is in place. There have been times when it took me nearly one hour to get from Safeway to Kualoo Rd. The bypass road feeding into the highway makes traffic crawl. Imagine how awful it will be if even more cars come down that road.
Also, agricultural land must be protected and used only for that purpose and not for development.
When housing is planned for development it should reflect prices more in line with the incomes of those who are middle to low income - and not the rich.
Thank you.
Judy Xenofos,

Response, 7/10/2017:

Ms. Xenofos,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed.

Please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient.

I can assure you the Hokua Place will meet applicable governing authorities conditions of providing affordable housing.

Thank you for voicing your concerns,

Ron Agor
Dear Mr Young,

We have read the extensive Draft Environmental Impact Statement for Hokua Place and remain opposed to this development for 2 reasons.

1. Traffic. Though the DEIS addresses traffic along with many subjects, the fact remains Kapaa is already overloaded with vehicular traffic and the new improvements will not do enough to alleviate what we already have. The DEIS study dates from almost 2 years ago for its Existing Conditions, and traffic has grown significantly worse since then. Indeed between the hours of 8-6 traffic comes practically to a halt in at least one direction of the highway if not both, and beyond these hours as well.

2. Upzone. We are opposed to upzone without significant mitigation. While there is clearly some good mitigation in the proposal, we are unable to determine if it compensated for the enormous financial benefit of changing the zoning to urban.

Despite the impressive amount of content in the document about the site and beyond, we have severe misgivings about it for multiple reasons and wish to voice our strong opposition to the development.

Sincerely,

Bruce and Cynthia Welti
Kapaa

Response, 7/10/2017:

Bruce and Cynthia Welti,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed.

Ron Agor
5/22/2015

RE: Hokua Place DEIS

Aloha,

I do not support this project under the pretext that it’s 769 residences will not impact our horrendous traffic situation or that our schools will only be impacted by an additional 156 students as opposed to approximately 1500. I also cannot support any development of this size in that crowded location and without any required financial contribution toward extra traffic lanes on Kuhio Highway and the Bypass other than a left turn lane to road A. The financial impacts of extra police, fire, and educational personnel also will be borne by the public and not the developers which is a large problem.

This 97 acre parcel should be kept in it’s current agricultural designation until proper infrastructure is in place prior to development.

Valerie Weiss
Kapaa

Response, 7/10/2017:

Ms. Weiss,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed.

Please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient.

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer. The need for extra, if any, City and County personnel is a topic best discussed with the County of Kauai.

Thank you for voicing your concerns,

Ron Agor
Aloha Land Use Commission Members and Friends of Kauai. We are writing you to request that you DENY the developer’s request for a Zone Change of their 97 acre Agricultural parcel. You have heard from several residents of Kauai about this matter, some in support, others in opposition like us. We oppose the development for these reasons: (1) health and safety concerns. We have experienced the serious traffic congestion and pedestrian safety issues, particularly during the Kapaa Farmers Market days. School children dodging cars to get to their rides, the absence of crosswalks and cross guards, and the popularity of the Market itself all contribute to a serious safety issue. (2) Any large scale development at this point, on top of the three hotels that are scheduled for the TOWN of Kapaa, will only be one more nail in the coffin to bury this special town with its small town charm that appeals to residents and tourists alike. The existing infrastructure cannot support any additional demands on it, such as the waste water treatment, pollution and environmental stress from additional population and vehicles, and the overall quality of life for the year round population. (3) The Agricultural zoning for this parcel should not be changed for any developer. Zoning laws are meant to protect our island and her people, not to be changed, chopped up, trimmed down here and there. There have been too many exceptions, special use permits, conditional uses with no safeguards in place to assure that the conditions are met, granted to too many developers over the years.

We respectfully request that you DENY a zone change so we can preserve our Agricultural lands and retain our semi-rural character that makes our island special to us, the residents of Kauai. Thank you for your consideration and careful study of what is before you.

Sincerely,

David and Elli Ward
Kilauea (808-651-5618)

Response, 7/10/2017:

David and Elli Ward,

Please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient.

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer.

Your concern for the safety of Pedestrians has need noted and will be reviewed.

Thank you for voicing your concerns,

Ron Agor
Dear Land Use Commission,

As a full time resident of Kauai, I am very concerned about the proposed Hokua Place Development that will add some 800 dwelling units in Kapaa. I currently live in Wailua Homesteads and already the traffic congestion in Kapaa is near gridlock for much of the work day. At the present time, my wife and I have to plan our day in order to avoid going through Kapaa between 10:00 A.M. and 6:30 P.M. During these times, the traffic congestion is so bad that it takes 25 minutes to drive from the Kuamoo Rd. intersection, to the Public Library in Old Kapaa, a distance of less than 3 miles.

If you add to the Hokua Place proposal, the proposed new development at Coco Palms, Coconut Beach resort and Coconut Plantation, it's expected that an additional 1800 vehicles will be added to the traffic load along the Kapaa Wailua corridor. Has anyone considered how this is going to work in light of the current gridlock that already exists in Kapaa from 10:00 A.M. to 6:30 P.M. everyday?

As a resident of Wailua Homesteads, we are particularly affected by any increase in traffic volume on the East side. As you know, we have only two routes down to the main highway, 1) Olohena Rd., or 2) Kuamoo Rd. Let me address each of these.

1) Olohena Rd. is a winding, narrow, two lane country road. Adding 800 housing units proposed by Hokua Place will turn this road into a congested main feeder into old Kapaa town. Neither the road, nor the traffic circle at the bottom of the hill were designed to handle the volume of traffic being proposed. Also, have you considered the effect this development will have on Kapaa Middle School? When school lets out in the afternoon, traffic on Olohena Rd. essentially comes to a halt until all the buses can leave. During this time, the whole Hokua development will be essentially unable to get in or out.

The Kapaa Bypass road is not going to be sufficient to serve as any solution to this problem. As with Olohena, it's a winding road and can be dangerous at the speeds people often drive there. With this new development, you can predict terrible congestion and a lot more traffic fatalities.

2) Kuamoo Rd. is somewhat wider and straighter than Olohena Rd., but still, it's already congested at certain times of the day. For example, if you try to go down the hill at 7:30 A.M., the traffic is sometimes backed up 1.5 miles, all the way to Waihikaa Falls.

It's my understanding that the traffic plans developed in 1997 have not been completed. Since that time, the Kapaa area has grown substantially. New long-term plans have to be developed before any new development is approved.

I am not against development per se. But before development is approved, the roads, drainage, sewage and refuse infrastructure have to be updated in order to handle the substantially increased volume of cars and people.

Other problems that concern me are:

a. Environmental impacts on storm drainage, land fill and recycling centers, as well as the impact on the land from sewage and septic systems.

b. Impact on Retail Business - Already the traffic is so bad that many people are avoiding Kapaa retail businesses and finding ways to do their shopping on-line, or on other parts of the island.

c. Impact on Quality of Life and Tourism - The main reasons people want to visit our island is to enjoy the rural lifestyle and to get away from the stress of urban living. Already in parts of the Island, we have missed this benefit. What effect do you think it has on vacationers who come here and find they have to spend an hour in traffic just to buy groceries? Are we going to continue down this path until Kapaa is simply no longer a pleasant place to live and visit?

In my opinion, Hokua Place should not be approved until ALL the impacts on our community can be thoroughly addressed.

Thank you for considering our comments.

Bart and Anne Walton

Response, 7/10/2017:

Bart and Anne Walton,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed. At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer. The utmost care will be taken to protect the surrounding areas from storm runoff with an adequate stormwater system. This development is designed for people who already live on island. If any impact to businesses should happen, it should be an increase of customers. Online retailing is fact of life in our modern world, one must choose to buy locally.

Thank you for voicing your concerns,

Ron Agor
Hokua Place Development

To: luc@dbedt.hawaii.gov

Aloha,

My email is to express my concern that the development behind the Kapaa Middle School will have a big impact on the already terrible traffic congestion in Kapaa. Also, there should be more than 25% affordable housing included in the development.

Thank you. Maile

Response, 7/10/2017:

Ms. Walters,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed.

Your concern for the safety of Pedestrians has need noted and will be reviewed.

I can assure you the Hokua Place will meet applicable governing authorities conditions of providing affordable housing.

Thank you for voicing your concerns,

Ron Agor
Subject: FW: Proposed 800 new housing units surrounding Kapaa Middle School

From: Robb Wall (RS) Kauai [mailto:robbwall@aol.com]
Sent: Friday, June 19, 2015 9:29 AM
To: info@hookuleana.com; luc@dbedt.hawaii.gov; mwilliams@kauai.gov; judydalton123@gmail.com; gabriell_aires@hotmail.com
Subject: Proposed 800 new housing units surrounding Kapaa Middle School

Dear Kauai Leaders,

Please consider the attached testimony of my concerns about allowing "up-zoning" of valuable AG lands surrounding the Kapaa Middle School. If Developers wish to build new neighborhoods, there are plenty of residential zoned lots for sale. The Wailua uplands scheduled for the Hawaiians should be a priority - not rezoning. Up-zoning hurts property values and our burdened roadways can NOT handle another car. Please see the attached.

Sincerely,

Robb Wall, Realtor Broker
Wailua House lots
Cell: 808-635-4606

******************************************************************************
JUST SAY "NO" TO UP-ZONING OUR PRECIOUS AG LANDS

THERE ARE CURRENTLY 76 LOTS FOR SALE ON THE EAST SIDE OF KAUAI - as of 6/17/15

THERE ARE CURRENTLY 87 UNSOLD HOMES FOR SALE ON THE EAST SIDE OF KAUAI

THERE ARE CURRENTLY 47 UNSOLD CONDOS FOR SALE ON THE EAST SIDE OF KAUAI

50% OF KEALIA KAI HAS NEVER SOLD - ANOTHER AG "UP-ZONED PROJECT."

THE 50 PLUS UP-ZONED AG UNITS AT KEALANANI HAVE GONE UNSOLD.

THERE IS CLEAR EVIDENCE THAT UP-ZONING AG LANDS ON THE EAST SIDE IS NOT PROFITABLE.

THE OWNER OF THE KAPAA MIDDLE SCHOOL AG LANDS CAN LEGALLY CPR AND SELL AG FARMS RIGHT NOW WITHOUT UP-ZONING.

THE EMERGENCY BY-PASS SHOULD "NEVER" BE CONSIDERED FOR ANY FURTHER BURDEN OF USE - WE ALREADY HAVE A CHURCH ON THE BY-PASS.

EMERGING PROJECTS ALREADY APPROVED:

350 TIMESHARE UNITS IN FRONT OF PLANTATION HALE
250 CONDOS IN COCONUT GROVE BY COURTYARD MARRIOTT

TRAFFIC IS ALREADY AT GRIDLOCK - DEVELOP THE WAILUA UPLANDS FOR THE HAWAIIANS.

AN EIS "MUST" BE DONE ASAP TO REDIRECT THIS PROJECT INTO AG PURSUITS.

THERE ARE TWO PLANNED HOUSING DEVELOPMENTS COMING FROM GROVE FARM IN AREAS THAT CAN HANDLE THE BURDEN OF DEVELOPMENT IN PUIHI AND HANAMAU L.

THANK YOU FOR CONSIDERING THESE PERTINENT FACTS.

Sincerely,

Robb Wall, Realtor Broker
Wailua House lots
Response, 7/10/2017:

Mr. Wall,

Many of those lots for sale are not affordable,
Many of those homes are not affordable to purchase or repair,
Only a handful of those condos are designed for families, most are transient accommodations or 1-2 bedroom vacation homes,
Kealia Kai is a luxury development, many luxury developments on Kauai and the outer islands have this issue,
Kealanani was canceled, not very many affordable options either, and living on ag land comes with additional cost responsibilities as stipulated by The County,
Again, the goal is provide single family and multiple family dwellings, without the agriculture stipulations implemented by The County,
The new timeshare and hotel units are not designed affordable housing for residents,
Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed,
There is an EIS available on the development’s website,

Thank you for voicing your concerns,

Ron Agor
You've just received a new submission to your HoKua Place.

Comment
I understand and agree with need for increased affordable housing development. There is much talk of traffic and road infrastructure and that is just a fragment of the impact of a large scale housing development. I understand that most of what is printed on you website speaks to the mass cry but there are other items that are missing on your list of improvements that might help sell your project as well. There is only one mention of building a new school and that is hidden in with other items. As a parent and educator I know of the overcrowded schools. That should be a priority in pushing your plan as well as a shopping center.

The density of families that will be living in the new community will not only impact roads. It is the assumption of the public that all residents will get in their cars, bypass Kapaa and head to work in Lihue. That's just not real life. They will have children who need to go to school and EAT. I would not choose a neighborhood where my child will be one of 40+ students in a classroom. There are already 30+ per class in many of the Kapaa schools as Hawaii has no class size limits, only what is dictated by the fire department. I would not choose to purchase in a community where I would need to drive down a hill to a grocery store where I would still get caught in Kapaa traffic because the roads near the groceries were not being improved and then wait waiting on even longer checkout lines....I'd choose to move elsewhere. This is not a simple "If I build it they will come".

I would happily move into a planned community with a grocery and school in my neighborhood. Bike paths and a pool are just to placate. You need to stop reacting to the superficial cries, but that is
cheaper, isn't it. As developers you are aware that communities like the one I described are successfully built and sold all over the world. It's what people want. It does cost more and take more time to build, as you know. However, if you presented the public with a livable plan, a plan for the future with shopping, schools, a bike path and a pool, the public would accept it with open arms and you would appear to have been listening all along.

Response, 7/10/2017:

Jill,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

The Department of Education has reviewed the DEIS and has no comment or concern.

The design of the development will be walkable/bikable with suitable amenities that don’t detract from established companies/services within a 3 mile radius.

Thank you for voicing your concerns,

Ron Agor

Re: Comments on Hokua Place
Draft Environment Impact Statement Volumes 1 & 2

NO ZONE CHANGE SHOULD BE GIVEN, UNTIL THERE IS ADEQUATE INFRASTRUCTURE IN PLACE.

Because the applicant has failed to answer most of the questions raised back in Jan.2015, this document should not be accepted. It should be returned for clearer and more precise answers to all questions.

LET’S BE CLEAR, THIS PROJECT IS NOT SUSTAINABLE.

What’s the first law of sustainability? You’ve heard thousands of people talking endlessly about sustainability; did they ever tell you the first law? Here it is: population growth and/or growth in the rates of consumption of resources cannot be sustained.

Traffic

Traffic is the major issue, and the project should not go forward until the infrastructure is in place to take the traffic from this project and all other known projects. We can document the discussion for the construction of the Kapaa relief route between Kapule Highway and Kapaa Stream all the way back to 1973. 42 years of growth without the relief route, it’s time has come.

1) Kapaa, Wailua Development Plan 1973 Bill# 304 (As Amended) Ordinance # 304
2) Kauai Long Range Land Transportation Plan 1997
3) Kauai General Plan (KGP) Ordinance # 753 adopting the KGP was approved by County Council on Nov. 29, 2000
4) Federal-Aid Highway 2035 Transportation Plan
We have received all the development from these documents, but very, very little new road capacity to deal with the increase in traffic. The many or frequent traffic jams and bump to bump traffic is not only a social impact on the community and tourism, it has a very heavy economic impact on the whole Island wide business community. Also one must consider the movement of emergence equipment during these times.

We have “DOUG OURSELF’s INTO A HOLE”. Please, “NO” more zone changes till we get the Kapaa relief route between Kapule Highway and Kapaa Stream in place.

The traffic studies for this project were done in 2012-2013 maybe even earlier, as we were still feeling the effects of the 2008-09 economic down turn. The economic activity since late 2014 has been picking up to a point where we may have a 12-20 % increase or more in visitors. If you have 18,000 visitor per day on Island, and you have 2.75 people per car that equals a potential of 6,500 cars on the road, at 22,000 visitors the number jumps to 8,000 cars per day.

The traffic studies also neglected to look at the traffic increases from Coco Palms Hotel, two condo projects with about 500 units total, just north of Coconut Market Place, the potential increase in traffic from the remodel of Coconut Market Please. Then west of the proposed project you have a 130 unit Ag. Subdivision, further west between Kuamoo Rd. (580) all the way over to Kawaihau, there is about 4000 buildable lots that do not need zone changes. Property owners could go in for building permits at any time.

Just to the south of Coco Palms Hotel along Kuhio Hwy. and across the Wailua River there is a 700 unit Hawaiian Homelands Proposed project.

And looking north we have a 3000 unit project. Because Lihue, is the center of commerce of Kauai, all the residents from this project will be traveling from time to time to Lihue.

Traffic from all projects will have substantial adverse effects on human beings now living on Kauai.

These impacts, which are cumulatively considerable, when viewed in conjunction with the effects of other past, present and probable future projects must be considered. The project’s contribution must be significant, but need not itself constitute a substantial percentage of the entire cumulative impact.
The major traffic congestion comes when these projects come together at the intersections of Kukui street and Kuhio Highway and then at Kapaa Bypass and Kuhio Highway.

**Project Alternatives:**

The (DEIS) Must discuss both mitigation and alternatives to the proposed project. Each alt. must be described in sufficient detail to permit a clear and precise comparison with the proposed project. The EIS should focus on alternatives, capable of “substantially lessening” adverse environmental effects. This has not been done.

**Storm water/ Drainage**

Because of the slopes on this site, a plan must show how the wet-lands will be protected from polluted storm water runoff. The developments hard surfaces could cover (12-15 acres) which will concentrate runoff and create a situation difficult to absorb. Before granting a zone change, require a full storm water/drain plan.

**Waste Water**

Today there is a question as to the capacity and plant’s ability to treat the current flow let-a- loan any additional flow. There also is a law suit in place and “NO REZONE” should take place till we see the outcome of the suit. If the County looses they could be required to build a new treatment plant, which may take 3-5 years or more.

**Water**

The project is within Kauai County Department of Water service area and must be required to deal with the water district. They must not be able to build their own water system.

**ADA**

Show how all walks, paths, and streets meet ADA requirement? A map is needed showing the grades of all walks, paths and streets, as well as the
connectivity to old town. It should also show how one may get to the church across the street, swimming pool and commercial areas of the project.

Show a complete North/South circulation plan.

How does the transportation plan and its mitigation promote resiliency for the community?

Please, “NO ZONE CHANGE” till the Kapaa relief route, is in place.

Thank You

Ken Taylor

taylork021@hawaii.rr.com
Response, 7/10/2017:

Mr. Taylor,

All of your concerns have been noted.

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed,

Proper storm water systems are of the utmost concern for any development. Adequate attention will be paid to this area of concern in order to protect the surrounding areas.

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer. It is also projected at this time that the development will not be connected to the municipal waster water system. The site will also have its own water source.

ADA is not applicable to site wide improvements which are privately owned and funded. Instead, ADA guidelines will be applied to a code specified amount of individual multifamily residences, parking facilities, access to residences, community amenities, and more where applicable. Please refer to the 2010 ADA Guidelines and Chapter 11 of the IBC for more information.

Thank you for voicing your concerns,

Ron Agor
I am a permanent resident of Kauai and live at 5837 Olohena Road. As such I will be directly impacted by the proposal to open an entrance onto Olohena Road from the proposed housing project. My house is only a few feet from the road and I already observe a great deal of traffic on a regular basis coming in both directions day and night. In addition, despite the extremely curvy nature of the road, many vehicles drive at an excessive speed. Creating an opportunity for more traffic to use this road will only increase the noise and potential for accidents, especially since I read nothing in the EIS that would reduce the speed limit allowed on this road.

I am opposed to the proposal to open an entrance to Olohena Road from Hoku’a Place due to the negative impact it will create on the community already living here. If, however, such an opening were to be built, then I would recommend a change in the speed limit to 15 mph.

Lastly, I oppose the proposed zoning change from agriculture to urban. My family and I are farmers; we live on Kaua‘i precisely because of its agricultural history. We strongly believe the economic future of this little island lies in sustainable agriculture and not in housing development. There could be sufficient affordable housing here if the county would step up and create regulations for rent control as well as other appropriate means to allow our families to live affordably. Furthermore, the prices listed in your proposal are hardly affordable!

Thank you for the opportunity to make my comments.

Isobel Storch
5837 Olohena Rd.
Kapaa, HI 96746
808-635-6053

Response, 7/10/2017:

Ms. Storch,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed.

Also, please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient.

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer.

I can assure you the Hoku’a Place will meet applicable governing authorities conditions of providing affordable housing

Thank you for voicing your concerns,

Ron Agor
Robert Rowny opposes the pending Hokua Place development because of the negative impact on the infrastructure & quality of life... for all residents & tourists on Kauai. Sincerely, Robert Rowny

Response, 7/10/2017:

Mr. Rowny,

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer.

Thank you for voicing your concerns,

Ron Agor
Dear Land Use Commission,

As a full time resident of Kauai, I am very concerned about the proposed Hokua Place Development that will add some 800 dwelling units in Kapaa. I am trying to understand why this is even on the table and can come up with only three possibilities:

- The members of the Land Use Commission are ignorant of the reality of life in Kapaa.
- The members of the Land Use Commission don’t care about the reality of life in Kapaa.
- The members of the land use commission have contempt for the citizens of Kapaa and Kauai.

I know that these sentiments are harsh, but given that the traffic congestion in Kapaa is near gridlock for much of the work day, it is hard to think otherwise. I regularly avoid going through Kapaa during the day between 10:00 A.M. and 6:30 P.M. The congestion during these times means that a trip from Kapahi (Helena Lane where I live) to Safeway and back takes no less than an hour. I know I’m not the only one who avoids Kapaa during these times and that’s got to have an adverse impact on Kapaa businesses.

If you add to the Hokua Place proposal, the proposed new development at Coco Palms, Coconut Beach resort and Coconut Plantation, it’s expected that an additional 1800 vehicles will be added to the traffic load along the Kapaa/Wailua corridor. Has anyone considered how this is going to work in light of the current gridlock that already exists in Kapaa from 10:00 A.M. to 6:30 P.M. every day?

As you know people in Wailua, have only two routes down to the main highway; 1) Olohena Rd., or 2) Kuamoo Rd.

1) Olohena Rd. is a winding, narrow, two lane country road. Adding 800 housing units proposed by Hokua Place will turn this road into a congested main feeder into old Kapaa town. Neither the road, nor the traffic circle at the bottom of the hill were designed to handle the volume of traffic being proposed. Also, have you considered the effect this development will have on Kapaa Middle School? When school lets out in the afternoon, traffic on Olohena Rd. essentially comes to a halt until all the busses can leave. During this time, the whole Hokua development will be essentially unable to get in or out.

The Kapaa Bypass road is not going to be sufficient to serve as any solution to this problem. As with Olohena, it’s a winding road and can be dangerous at the speeds people often drive there. With this new development, you can predict terrible congestion and a lot more traffic fatalities.
2) Kuamoo Rd. is somewhat wider and straighter than Oloheana Rd., but still, it’s already congested at certain times of the day. For example, if you try to go down the hill at 7:30 A.M., the traffic is sometimes backed up 1.5 miles, all the way to Opaekaa Falls.

It's my understanding that the traffic plans developed in 1997 have not been completed. Since that time, the Kapaa area has grown substantially. New long-term plans have to be developed before any new development is approved.

I am not against development per se. But before development is approved, the roads, drainage, sewage and refuse infrastructure have to be updated in order to handle the substantially increased volume of cars and people.

Other problems that concern me are:

a. Environmental impacts on storm drainage, land fill and recycling centers, as well as the impact on the land from sewage and septic systems.

b. Impact on Retail Business - Already the traffic is so bad that many people are avoiding Kapaa retail businesses and finding ways to do their shopping on-line, or on other parts of the Island.

c. Impact on Quality of Life and Tourism - The main reasons people want to visit our Island is to enjoy the rural lifestyle and to get away from the stress of urban living. Already in parts of the Island, we have ruined this benefit. What effect do you think it has on vacationers who come here and find they have to spend an hour in traffic just to buy groceries?? Are we going to continue down this path until Kauai is simply no longer a pleasant place to live and visit?

In my opinion, Hokua Place should not be approved until ALL the impacts on our community can be thoroughly addressed.

Thank you for considering my comments.

Dave Rosenberg

Mr. Rosenberg,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed. At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer. The utmost care will be taken to protect the surrounding areas from storm runoff with an adequate stormwater system. This development is designed for people who already live on island. If any impact to businesses should happen, it should be an increase of customers. Online retailing is fact of life in our modern world, one must choose to buy locally.

Thank you for voicing your concerns,

Ron Agor
Dear Peter,

I would appreciate your taking another look at the Hokua Place project proposal. I am a 20 year resident of Wailua and have great concern for what I hear about the development.

The DEIS is supposed to be the official response to previous comments and concerns raised by the community. It appears that the document not only fails to address most of the concerns raised by the community it also fails to resolve potential infrastructure problems.

1) The developers have denied the need for changes, saying that traffic studies done in 2012 are adequate. How valid is that?

I travel from my home down Oloheha Rd to the roundabout on work days between 7:30-7:45am every morning and I can tell you the traffic regularly gets backed up to the Middle School. There is not one morning where there is less traffic than that unless school is not in session or it is a Holiday.

Adding more density to the environment before we resolve traffic issues is a great mistake. It may look great to everyone who is looking at the proposal on paper but I can tell you from personal experience that if the development is allowed to go ahead it will have a very negative impact on the entire Kapaa corridor as there will be gridlock at the Roundabout, in Kapaa town, at the Wailua Bridge multiple times a day which will affect

- being able to get from point A to point B on a timely basis
- local businesses
- the tourist industry in a negative way. Who will want to come visit if they can’t travel with ease from one area of the island to another. No one wants to sit in traffic as if it were LA.

2) The DEIS also fails to address the very real problem of lack of adequate water pressure and storm run-off issues that will increase due to re-contouring the land.

For 10's of years the big concern about building in the Wailua corridor has been the lack of adequate water pressure. Moreover, when there is heavy rainfall the water run-off is a serious
problem. There is always flooding and road closure that goes on due to water running off from
NouNou Mt.

3) The development fails to address the issue of affordable housing

Moreover, the most egregious error is the lack of provision for affordable housing. According to
the DEIS only 24% or 183 dwellings in the multi-family apartments are to fall in the
affordable housing category which is mandated by the County. Single-family dwellings on lots
will be in the “$650,000 to $950,000 range with projected prices as noted in 2015 dollars”.

Who can afford that?? Your average Kauaiian already holds two jobs to try to make ends meet.
There is not enough time in the week to work even more hours.

Please re-consider what is at stake here!!

Aloha, Karen Mavec

Wainu resident

Response, 7/10/2017:

Ms. Mavec,

All of your concerns have been noted.

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns
and the solutions proposed,

Proper storm water systems are of the utmost concern for any development. Adequate attention will
be paid to this area of concern in order to protect the surrounding areas.

At this time we project that any off-site utility and roadway upgrades will a shared expense between
the county and the developer. It is also projected at this time that the development will not be
connected to the municipal waster water system. The site will also have its own water source.

I can assure you the Hokua Place will meet applicable governing authorities conditions of providing
affordable housing

Thank you for voicing your concerns,

Ron Agor

Subject: hokua place subdivision

I am in total opposition to this subdivision. As a life long resident of this island I have seen the changes
that have impacted our highways and lives some good, but for the most part not. To me this is not smart
growth.

Before homes, we need our highways and roadways updated and improved. Let us not put the cart before
the horse.

Seen way to many of those happen on our island. Do it rite and correct. Not after the fact.

Affordable housing has become such a trite word. For whom is it affordable to? I know that anything
above

500,00 dollars is not affordable for the local people, my question then is to whom are these homes
targeted to.

I say No Adequate Highways, No Homes. Am just saying Not here and not now

aloha

Subject: serious concerns about the proposed Hokua Place development

Aloha,

I live in the Wailua house lots in Kapaa. It is unimaginable and I think completely irresponsible to consider allowing agreement for this development (by re-zoning ag to urban land use) before we have the infrastructure in place to accommodate the increased traffic, waste treatment, and classroom overcrowding.

Not to mention whatever other unforeseen negative impacts on our rural kauai lifestyle the proposed increase in island resident and tourist population will bring.

We must be righteous on committed to only sustainable growth here on Kauai. Developers promises of environmental sensitivity and sustainability have no basis in what actually happens. Their concerns are on the profits they will make. Not on any ill effects that the community will suffer because of what they have built here.

This particular developer has pointed to written safeguards and allowances that are ambiguous at best with no tangible dates, financing, or definitive plans. Pie in the sky hopes that will only turn into mud on our faces.

Just today the bypass was considerably backed up, going south. Market day on Wednesday in Kapaa is already a horrendous traffic mess. Adding 1600 cars from the Hokua Place development right smack into the congestion that already exists there can only lead to a total nightmare for us.

The waste treatment substation at haleilio road already smells like you know what. The traffic light can last 6 minutes with a bunch of cars having to sit right next to that stench. If we can’t manage our waste now, what will happen as the proposed Coco Palms opens its doors - especially with the existing plan to route their guests right onto Haleiio. Then there are the Waipouli Hotels planned. Do we really need 3 new hotels in Kapaa???? With no beautiful beach to offer their customers, none will be hanging out at the hotel. They will be on the roads from dawn till …

Numerous times I have ventured out along Haleiio planning to go south or north only to turn back not wanting to deal with the traffic congestion and delays. The post office can wait. I’ll get that food I need later. I hope my bank balance can wait to deposit this check another day…

Do you really think tourists (who remain Kauai’s bread and butter) will continue to flock here to sit locked in traffic congestion while they have to smell noxious waste treatment failures?

This is such a no brainer. Our future is in YOUR hands. We have entrusted you to watch over our a’ina and island community needs.

Please deny the application for a zone change form ag to urban for the proposed Hokua Place Development.

Thank You!

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer. It is also projected at this time that the development will not be connected to the municipal waster water system. The site will also have its own water source.

The Department of Education has reviewed the DEIS and has no comment or concern.

Thank you for voicing your concerns,

Ron Agor
Aloha,

The traffic congestion on Kauai is at a point where county planners can be found negligent in approving and contributing to the density of our roadways. It is an emergency and safety issue when first responders cannot get to their calls. There needs to be a viable traffic remedy, not stop gap fixes like those proposed and before any new development let alone rezoning of agricultural land is approved.

The coconut palms hotel will already create major traffic congestion at one end of Kapa'a, we don’t need another source of traffic at the other end. There are major choke points along the main highway of Kauai. Any development will add to the congestion of these known choke points.

Kauai is food unsustainable importing 90% of our food. The state, county, UH system and private entities are working towards food sustainability initiatives and we cannot afford to lose any agriculturally zoned land to residential development until we fully address and solve our food sustainability issue.

We have many other problems that need to be taken care of before we start exacerbating these problems with more people and traffic. Sewage, MIPF (recycling), run off water leading to polluted streams, traffic, water rights. All of which have to be addressed before we add any more people to the mix.

We need affordable housing but building 650 high-end over-priced houses in the name of affordable housing is a problem. This is where we run into traffic problems that will not be solved by the proposed new routes. How much affordable housing has gone to those born and raised in past developments?

Since when did building more houses ever lower housing prices. Look at Honolulu or Los Angeles. Building more houses has never lowered the median cost of housing, ever. Construction jobs are unsustainable.

Please do not let us end up being the new Orange County.

Mr. Lane

All of your concerns have been noted.

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed,

Also, please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient.

Proper storm water systems are of the utmost concern for any development. Adequate attention will be paid to this area of concern in order to protect the surrounding areas.

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer. It is also projected at this time that the development will not be connected to the municipal waster water system. The site will also have its own water source.

I can assure you the Hokua Place will meet applicable governing authorities conditions of providing affordable housing

Thank you for voicing your concerns,

Ron Agor
As a citizen resident of upper Kapahi I cannot support the proposed Hokua Place development. The highway infrastructure cannot support such development with 800 new homes and the cars that each home will have entering Kapaa at the current roundabout. As far as your proposed feeder road from the current Bypass to Oloheana Road goes against the initial purpose of the Bypass to not have intersections along its route.

Also I feel strongly that Agricultural Land should remain for the production of local food sources and not be rezoned for residential purposes.

Subject: Proposed HoKua Place development

Aloha Mr Young and other interested parties,

I am writing in opposition to the proposed Hokua Place development. While I certainly agree that Kaua‘i needs more affordable housing, I don’t believe that this is the appropriate time nor place for this project to go forward.

Until such time as the infrastructure has been established, it does a huge disservice to the rest of the community, to accommodate the new construction.

I live in the Wailua House Lots division, having moved recently from Kapahi. I used to have to schedule trips past the middle school, so as not to encounter the backed up traffic from parents dropping off / picking up their children. With the additional homes planned for this area, the congestion will only be worse, but likely not as bad as it is now, on Kuhio Hwy through Kapaa town. The roads need to be in place before the construction commences.

I’m also concerned that these homes will not be affordable for the average citizen of Kaua‘i, but instead will be priced out of the market. Pricing these homes out of financial reach of the majority of the community only increases the homeless situation, which we’re dealing with particularly on the Eastside area.

Another concern is the sewage system. For years, traversing the area around Coco Palms/ Haleilio intersection is a strong reminder that the waste water treatment plant is insufficient to handle the current load. The odor is so strong at times you have to hold your breath, even with the windows up. It’s inconceivable that 800 new residences could be added to this already overloaded system, without major pollution problems. Again, we need to have infrastructure in place prior to construction.

Although this testimony may be regarded as merely “anecdotal”, it is what we live with on a daily basis; If the intention is to increase the quality of life here on Kauai, consider locating the development in Lihue, where residents can walk to the shopping centers, etc. The roads have already been widened to accommodate more traffic, there is plenty of vacant land across from the centers and it would serve to centralize the community.

Mahalo for the opportunity to speak to this issue.

Thank you for voicing your concerns,

Ron Agor
Aloha to all personnel, State and Kauai County, who will be reviewing the above application DEIS.

I have spent a considerable amount of time reading the (DEIS) for the above application. Among many important items outlined in this document, I have time to write the issues only I am most concerned about, after having researched information that has prompted me to comment on issues and ask the following questions.

1) Page 130: TRAFFIC RELATED ISSUES: The applicant suggests that to mitigate a potential problem for pedestrians and bicycles to safely cross the Kapa'a By-Pass Road, that a multi-use overpass be constructed. According to Don Smith of the Hawaii Department of transportation (HDOT), overpasses are seldomly used and are not a good investment in State funds. The DEIS does not indicate who would be responsible for building the overpass if approved. I find this suggestion unacceptable.

2) Page 131: TRAFFIC RELATED ISSUES: The applicant admits that the intersection of Oloheana, Ka'apuni and Keahuluas Roads is presently poor. They are proposing a round-a-bout be constructed near this intersection, leading into their project at their main drivethrough road which is immediately at the property corner of their project and the Kapa'a Middle School. Not only is this probably the worst possible sighting for a round-a-bout being so close to a steep grade from and to Oloheana Road (causing all traffic including school buses to consistently stop and start on this hill, but there is a huge drop off on both sides of this area. Should navigation by school buses be impaired for any reason, buses could easily fall over the edge of the embankments. Also, the cost of round-a-bouts has been quoted to me by the HDOT as costing between 5 and 7 million dollars. Since this intersection is NOT a state highway, the County of Kauai would have to pay for this suggested mitigation as the applicant is not offering to do so in the DEIS. This is an unacceptable solution.

3) Page 136: TRAFFIC RELATED ISSUES: In a letter dated February 11, 2015 from Raymond Mc Cormick, then District Engineer of the HDOT, he states that one of the solutions being proposed to hasten traffic around Kapa'a. is to add an additional lane to the North end of the Kapa'A Bypass. Not only is there no time line for funds to be available for this addition, but according to the HDOT, a traffic signal would have to be installed at the intersection with Kuhio Highway, causing more of a traffic tie up than what already exists. Since no funds have been allocated by the KDOT, it could be many years after any development is approved and constructed on the applicant's property. This is not an acceptable solution.

4) Page 79: WATER RESOURCES: The applicant admits that there may be a contamination problem with the well that they are proposing would either be connected to the Department of Water (DOW) storage tank on Ka'apuni Road, or used directly within their project development. Regardless, I find these two proposals are assuming that their well water will be potable water for human consumption since this exploratory well is not indicated as having been already tested by the Hawaii Department of Health (HDOH), and not now meeting the requirements of the DOW. The well is indicated as being on two separate maps in two separate places in the DEIS as being within a few feet from an existing stream and about 300 feet from the stream. QUESTION: Which map is correct?

Regardless, the stream that flows through or near the applicant's property originates west and northwest of Oloheana Road, flowing through major cattle, goat and pig country for years and years. Plus, is there any research to be done regarding overflowing or leaching cesspools within the uplands of this stream?

5) Page 80: WASTEWATER: The applicant is proposing that all wastewater from any potential development will be routed to the sewer lines that traverse through Kapa'a and Wailua into the Wailua Water Treatment Plant (WWTP). This plant, originally
constructed in 1964 meets only the minimum requirements for wastewater treatment per Hawai‘i Administrative Rules. Although the WWTP has been expanded to deal with a higher peak flow, it still is pumping a minimally treated outflow into the ocean at Lydgate Park as well as being used as irrigation for the Wailua Golf Course.

QUESTION: What kind of testing and how often is the outflow pipe into the ocean researched? Also, are there signs at both the Lydgate beach location and the golf course advising swimmers, surfers and golfers that they may be subject to pollution and bodily harm, particularly if studies and research are not done consistently and independently of the management of the WWTP?

I would appreciate your consideration of my concerns as you review the DEIS for this project and will expect detailed responses via e-mail and/or at a future public hearing to be held on Kauai.

Mahalo and with Aloha,

Marj Dente, resident and property owner for over 25 years
6335-B Waipouli Road, Kapa‘a, HI 96746  808-823-8162
Please don’t ask for approval for this development until the infrastructure in Kapaa can be improved by the DOT. The sanitation needs improving and the flow of traffic through the Kuhio Highway shopping area. The tourists are not going to continue to visit here once they experiment the traffic gridlock.

the locals will have to do our shopping in the evening or early morning hours to stay out of the gridlock. It is already slow most weekday afternoons and we don’t even have the traffic from the approved 3 hotels yet to experience.

Is the developer going to live and commute from his development. I doubt it!

Hold off till DOT and local politicians can improve the traffic and sanitation.

Thank you, Lila Devi  (Wailua Homesteads homeowner)

Response, 7/10/2017:

Mr. Lane

All of your concerns have been noted.

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed,

At this time we project that any off-site utility and roadway upgrades will a shared expense between the county and the developer. It is also projected at this time that the development will not be connected to the municipal waster water system. The site will also have its own water source.

Thank you for voicing your concerns,

Ron Agor
Aloha to those reviewing this application,

After reviewing the Draft Environmental Impact Statement of May 15 for application of zoning change from agriculture to urban use as proposed by Ho‘okuleana LLC, aka Hokua Place in Kapa‘a on Kaua‘i, I do not think the developer has made a convincing case for this development in this location being a better use than its current designation for agriculture.

Attending a meeting with Dept. of Transportation personnel Ray McCormick and Don Smith, I learned that funding for road upgrades that would mitigate the increased traffic on the already overburdened Kapa‘a-Wailua corridor, arising from this development, will not be forthcoming for a long time, if ever. Traffic congestion is already a real safety issue for buses transporting children to the adjacent Kapa‘a Middle School, for children crossing Oloheha Road in front of the school, and for emergency vehicles being delayed in dense traffic on Kuhio Highway.

The developer is claiming an on-site water source sufficient to serve all 800 homes. There is no independent corroboration of this claim. An independent study, paid for by developer, needs to verify the quantity and potability of water from a well on the property.

Wastewater is proposed to go to Lydgate where it would be partially treated and much of it then pumped into the ocean. Please consider there are three already permitted, yet to be built resorts in Waipoli/Wailua, all to be served by the 1960's era Lydgate waste treatment plant. Developers, not taxpayers, should pay for waste treatment upgrades. But first and foremost it should be determined that the already stressed eastside ecosystem can absorb all this added waste at all.

On a personal note, I used to drive from my home on Oloheha Road to Wailua Beach frequently, but I have stopped because of the stress and personal risk of confronting the traffic tie-up at the Kuhio Highway, Kuamo‘o Road intersection. It's a small example of a loss of quality of life, difficult to measure and quantify, endured by residents of the east side of Kaua‘i.

Kaua‘i needs housing for its people in areas that have the capacity to receive them. Kapa‘a-Wailua is not one of those places.

Thank you for your consideration,

Michael Goodwin

Testimony regards DEIS Hokua Place
published 5-8-15 by OEQC

Aloha Land Use Commissioners,

Land Use Commission planning and decision making for Hawaii must take into consideration the long term interests of the people and environment of our islands. In recent decades our needs have become predominately dependent on imported of goods, services, energy and food.

We now rely on the mainland for approximately 90% of our food. This over dependance from far off places extends to our sources of energy, and our sources of consumer and industrial products.

On top of that the economy of Hawaii has need for tourism for income that is fragile and fickle. Obviously our isolation from all other land masses in the world will be a factor of planning for the future if those importations are threatened.

So, if ever there was a time that self sustainability was a top priority for planning the future of Kauai - NOW is that time.

SUSTAINABILITY
The proposed Kohua Place advertises its plan as “Sustainable”. But they use the word only as a talisman. This project is quite the opposite of “Sustainable” planning. It’s more of the kind of development that makes us vulnerable to food riots within weeks of any serious disruption of Matson Line containerships from California.

The plan is car-centric. It will require getting in your car to do most anything. This will be place where people have to commute to work and commute to find food. The plan requires new roads, parking and accommodation for high-density multi-story living. Three quarters of the land is used for multi-unit housing requiring extensive parking lots, the rest is suburban single family sprawl on cul-de-sacs.

There will be little opportunity to grow food, pick fruit, raise chickens, keep goats, or house hunting dogs in this development.

The proposed density of the project is needed only to cover the debts and maximize profits to the speculators and investors promoting it - and from that springs the necessity to change it to an Urban District. In tomorrows rearview mirror that will be seen as shortsighted and impoverishing to Kauai.

Unfortunately, the wasteful use of fossil fuels, and the resources needed for the extravagant consumer lifestyle the modern world has become accustomed to has brought us to situation in which we are facing real declines in sources of cheap energy and resources.
Since 2008 we have been living in a collapsed world consumer-based industrial economy that faces negative growth forecasts. Although characterized as a financial collapse, the crash in 2008 was largely driven by having reached world Peak Oil production at that time.

Cheap, plentiful, fossil fuels to “grow the world economy indefinitely” will not recur again. As a result there is little reason to believe that the technology and industry supported by cheap oil will persevere. This would include affordable world-wide shipping across oceans of containers filled with consumer products or packaged and refrigerated food.

In Hawaii we already face some of the highest consumer costs in the world. It is certain that we in Hawaii will face ever increasing costs to import food and all other industrial products to our islands.

CLIMATE CHANGE
But even more tragic is that the by product of modern industrialism and food production has been the ever increasing CO2 content of our atmosphere. This “greenhouse” gas is wreaking havoc with the climate of the Earth and driving worldwide temperatures higher.

In Hawaii we are already seeing impacts on the environment. The jetstream has become more erratic. Here on Kauai our regular north-east tradewind has become irregular and supplanted by drier polluted Kona winds.

Climate scientists at the University of Hawaii have found an association with rising ocean temperatures and the elevations of the clouds over Hawaii. On Kauai rainfall on Mount Wai'ale'ale has been falling for decades. Much of Kauai is now in a moderate drought.

Climate Change and Global Warming are identified with the state-wide extreme drought in California that is quickly returning the Central Valley to desert conditions. Less snowfall in the mountains of California will continue due to Global Warming and has doomed agriculture there. And desert is what much California was before the last unusually wet century and the diversion of Colorado River.

Up until 2014 more than half of America's vegetables, fruits and nuts were grown in California. That will no longer be the case.

As California returns to the old -normal we will see end of the recent cornucopia of fruits and vegetables in the supermarkets of America and Hawaii.

Why is this relevant to the LUC decision on Kohua Place to convert the land its to sit on from an Agricultural District to an Urban District?

In one simple word it is patently “UNSUSTAINABLE!” And we need to be self sustaining in Hawaii. Not only will Kauai have to provide the food for its residents, but all the outer islands will have to contribute food to Oahu with its overburden of hundreds of thousands of people.

FOOD SECURITY
All agriculture land in Hawaii should now be viewed as a lifeboat to the future. We now know that industrial mono-crop farming requiring high energy inputs, synthetic fertilizers and massive pesticide use and will not work in Hawaii.

Sustainable food growing practices such as Organic Farming, Permaculture and Food Forests as well as some traditional farming, pasturing and orcharding should be practiced. We need to find what works as quickly as possible.
In general, I would suggest that the LUC evaluate proposals in Agricultural Districts with a strict set of criteria regarding an increase in local food production, and avoiding increased automobile dependance, population growth, and suburban sprawl.

If any changes in designation of mauka Agricultural Districts is contemplated it should be to either Conservation or Rural Districts. To sustain water resources we will need more forestation and to meet our food security requirements we will need more residents on small farms.

And projects on designated Rural Districts should be required to be at least self-sustaining in the production of such things as fruits, vegetables, chickens, or eggs.

How else shall we live on Kauai in the future?

Mahalo for your considerations of this matter.

Juan Wilson

Response, 7/10/2017:

Mr. Wilson,

Your concerns have been noted. We also agree that sustainability and climate change are two of the biggest challenges facing the building industry. We can assure you that the proposed development will be designed with sustainability practices in mind.

Please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient. However, we can consider adding community gardens to the project.

As shown in the EIS, Kauai is in need of affordable housing done correctly.

Thank you for voicing your concerns,

Ron Agor
Dear Land Use Commission,

If you add to the Hokua Place proposal, the proposed new development at Coco Palms, Coconut Beach resort and Coconut Plantation, it’s expected that an additional 1800 vehicles will be added to the traffic load along the Kapaa/Wailua corridor. Has anyone considered how this is going to work in light of the current gridlock that already exists in Kapaa from 10:00 A.M. to 6:30 P.M. every day? On top of that, DoT does not have a sufficient plan in place to address the current gridlock, much less adding 1800 vehicles to the mix in Kapaa alone.

This approach to land use planning is ad hoc at best, without consideration of the appropriate infrastructure to support new development - and in the end only responsive to the interests of developers. What is at risk is the loss of quality of life, the loss of tourism revenue - a major source of income for this island, and most of all, the loss of agriculture land to housing developments turning the garden isle into the suburban isle.

The project has been presented under the guise of being a low income housing project, however with full disclosure it is clear that 76% of the project does not fall within this category. As of today, 784 houses are on the market on Kauai, do we really need more mid to high value housing? Given the number of available mid to high value homes, do we really want to lose land, lose our quality of life, and lose our major income generator to the interest of a single developer?

I am a full time resident and property owner in the Homesteads, I do have an interest in the outcome of your decision. Please do not change the land use designation from agricultural to residential in order to accommodate the building of Hokua Place.

Mahalo.
Anne Walton
Wailua Homesteads

Response, 7/10/2017:

Ms. Walton,

Your concerns have been noted. Please refer to the updated Traffic Impact Analysis Report from May 2017 for you traffic concerns and the solutions proposed.

Please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient.

I can assure you the Hokua Place will meet applicable governing authorities conditions of providing affordable housing.

Thank you for voicing your concerns,

Ron Agor
To Peter Young:

For the record, I am against the Hokua Place development. This land is agricultural land. It should remain agricultural land and be put to that use. Otherwise, this is another example of someone from out of state buying AG land on Kauai without the least intention of using it as agricultural and instead trying to make as much money as they can from it. This is not for the Community. How naive can they expect us to be?

I understand that Greg Allen is trying to get this pushed through for his own profit. This is the same person that built that monstrosity on Anini Beach and also is just finishing up another inappropriate structure on State Conservation land along the Wailua River.

Sincerely,

Randall Roe
Wailua

Response, 7/10/2017:

Mr. Roe

Your concerns have been noted.

Please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient.

Thank you for voicing your concerns,

Ron Agor

Subject: HoKua Place

We are opposed to the proposed development in Kapaa mauka of the alternate round-about. Any further developments should be south of the river until the East Side traffic can be resolved. Mike and Donna Ritz Princeville

Response, 7/10/2017:

Mr. Ritz

Your concerns have been noted.

Please refer to the updated Traffic Impact Analysis Report from May 2017 for your traffic concerns and the solutions proposed.

Thank you for voicing your concerns,

Ron Agor

Subject: strong opposition to the proposed Hokuia Place development

June 19, 2015

re: DEIS Hokuia Place, published 5-8-15 by OEQC

Aloha Land Use Commission,

Planning for the small island of Kaua’i is about proper long-term management of limited resources. Piling more layers of population and traffic upon our already-congested East Side makes no sense. Aside from our clean air and relatively clean oceans, the Garden Island’s phenomenal natural beauty, rural character, and relaxed ambiance are its primary attractions. There’s nothing relaxing about traffic jams; they’re what we and our visitors are here to escape. Why is our County even considering a development on the scale of the Hokuia housing project proposed for Kapa’a? Kapa’a and Wailua residents are already tearing their hair out trying to get to and fro from work or errands. It now takes hours to perform the simplest tasks of shopping, banking, and getting gas. (I work mostly on the North Shore, and have actually moved from the House Lots to the north end of Kapa’a to save numerous hours per week not negotiating traffic.) Meanwhile our County has approved three more HUGE resorts smack in the middle of the congestion. And now a whole new city—86 new houses, 683 new apartments, and at least 1500 more commuting vehicles daily? And re-zoning the land from Agricultural to Urban so this development may proceed? Who are the winners, and why?

The single protection that land has is to be zoned as Ag, wilderness, preserve, park, or the like. Zoning with a long view as to how things will play out later is key. Zoning laws are LAWS. And we are to follow them. To make exception for ANY developer sets a precedent that mocks our county’s guidelines and protections. It makes a sham of government itself—when government breaks its own laws, we’re all in trouble.

The land in question is zoned Agricultural to protect Kapa’a Town and vicinity against over-development, and was thusly zoned by those who respected the ‘aina, wanted our island to remain special through the decades and centuries ahead, and recognized that food would one day be critical and having enough land to grow it would mean the very survival of our tiny remote island.

Now there’s talk of trading away this food land for fancy houses, token rentals for low-income locals (a broad demographic that can easily include newcomers from the Mainland), and a vast sweep of concrete, access roads, lights, utility grids, sewer infrastructure, roads, telephone poles and lines, signage, sidewalks, driveways, not to mention the tremendous disruption, noise, and traffic impediments that come with two years of construction. Plus the thousands of humans to be installed and the burden they’ll place on the small town of Kapa’a.

And we lose forever the land, the opportunity to grow food on it, the lush foothills of Sleeping Giant, the lovely vistas that restore our souls, and the irreplaceable habitat for all the flora, fauna, birds, bees, and crawling things we know, love, and depend on for the overall ecosystem. Not to mention whatever befalls our watershed.

The consideration of something such as Hokuia Place sincerely questions why we’ve even conversed about honoring Hawaiian culture, and protecting our environment and our Ahupua’a. It questions whether we care about our island at all, and questions the vows our public officials took upon entering office. I know that common sense and any kind of conservation are dinosaurs from a day gone by, yet Kaua’i was always a breath of fresh air. Is it not our kuleana to keep Kaua’i that special place?

Approval of this development is unwise, unpopular, and requires changing the law to service the few at the expense of the many. (And the solution is not new roads—as the Hokuia developers and others are proposing—but putting new housing and resorts in areas of Kaua’i that can accommodate them. Not Kapa’a or Wailua.)

Don’t let Hokuia happen.

With deep love for the ‘aina and commitment to protecting it,

Wendy Raebek

P.S. Keeping a place pristine and beautiful has never been bad for its economy, but quite the reverse.
Response, 7/10/2017:

Wendy,

Your concerns have been noted. Please refer to updated Traffic Impact Analysis Report released in May 2017 for solutions to Kapaa circulation problems.

Also, please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai’s plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai’s goals of becoming self-sufficient. However, we can consider adding community gardens to the project.

As shown in the EIS, Kauai is in need of affordable housing done correctly.

Thank you for voicing your concerns,

Ron Agor
Dear Sir,

My husband and I have been residents of Wailua Homesteads for the past 43 years. I am writing to tell you that I disagree strongly with the proposed change of zoning for the Kapaa property that will be called HoKua Place. This land should remain as agriculture zoning in hopes that in the future it will be used in Ag capacity. A change to residential zoning will create a huge increase in vehicles on our already clogged Eastside roads. We MUST fix the traffic problems now before any more housing or hotel projects can be added to this mess. Please do the right thing and vote against this foolish zone change. Thank you, Sincerely, Terry O'Shaughnessy

Response, 7/10/2017:

Ms. O'Shaughnessy,

Your concerns have been noted. Please refer to updated Traffic Impact Analysis Report released in May 2017 for solutions to Kapaa circulation problems.

Also, please refer to the County of Kauai Important Agriculture Lands Study of 2015 for more in depth information concerning Kauai's plan for farming, food security, and self sufficiency. This proposed development is on land that is not considered Important Agriculture Lands, and does not play a part in Kauai's goals of becoming self-sufficient. However, we can consider adding community gardens to the project.

As shown in the EIS, Kauai is in need of affordable housing done correctly.

Thank you for voicing your concerns,

Ron Agor
June 21, 2015

Dear Aloha Land Use Commission,

Simply put, to remain inhabitable by humans, this Island of Kaua‘i needs for us to restore its soils and protect its waters. It does not, repeat NOT, need further development.

The Hokua Place project is not an appropriate solution to our indeed dire problems. It pretends to provide affordable housing, but in reality it does not. Worse, importing the massive amounts of materials needed and then using them for construction here will make an unacceptably substantial contribution to global carbon dioxide pollution, not to mention erosion, increasing our already desperate climate situation.

I am a marine biologist, with a PhD in Hawaiian corals, 4 years here recently in Kaua‘i and 45 years of familiarity with coral reefs worldwide.

I am appalled at the current condition of our coral reefs here in Kaua‘i. I have begun a small restoration project in Kapa‘a, and encounter only three (3!) species, barely surviving. It is quite frightening. Bioerosion (disintegration) of the reef substrate is being favored by our human activities on land. These activities, including construction projects, poor sewage management, poor farming techniques and excessive traffic (for example the 30+ chemicals that wear away from automobile tires and are flushed with the rains directly to the sea) send nutrients and biocides into the sea, and consequently wipe out the corals.

As so many have written to you quite elegantly and convincingly already, we are a tiny remote island. We here need to become self-sufficient, starting immediately. As I beg in my opening sentence, we need to restore our soils, and protect our waters.

I am against the Hokua Housing project.

Katherine Muzik, Ph.D.
Associate in Natural Sciences, Bishop Museum and
Marine Biologist, National Tropical Botanical Garden
Response, 7/10/2017:

Ms. Muzik,

Your concerns have been noted. As the EIS state, Kauai is in need of affordable housing. I can assure you the Hokua Place will meet applicable governing authorities conditions of providing affordable housing.

We also agree that sustainability and climate change are two big global challenges. We can assure you that the proposed development will be designed with sustainability practices in mind. Hokua Place will implement these practices to minimize pollution. The bigger picture, however, cannot be solved by a housing development or by denying people a place to live.

Thank you for voicing your concerns,

Ron Agor
You've just received a new submission to your HoKua Place.

Submitted Information:

Name
Aaron Higa

Email

Comment
Why can't it be like the Kakaako project in Oahu where it's being sold for less but if Owner sells in future they must pay back the difference? This Kakaako project is being geared towards Hawaii families and not people moving here from the Mainland. How many Hawaii families can afford a 600k home!

Response, 7/10/2017:

Mr. Higa,

I can assure you the Hokua Place will meet applicable governing authorities conditions of providing affordable housing.

Thank you for voicing your concerns,

Ron Agor
I STRONGLY OPPOSE THE DANNER, ILLEGAL ASSAULT ON THE PEOPLE AND ILLEGALLY OCCUPIED HAWAI'I NATION. MORE OF THE SAME SHADY DEALINGS AND DISREGARDING OF THE CLEAR OPPOSITIONS!

Response, 7/10/2017:

Mr. Alvarez,

We cannot address your concerns about the development at this time without specific examples.

Thank you.
