Subject: [EXTERNAL] Hokua Place: unless the infrastructure is updated, it should not be allowed to go forward.

Good Day.

The sewage treatment plant in Kapaa often “stinks to high heaven” now.

We used to travel to Lydgate to snorkel and enjoy the park. But no longer feel it is safe. Adding nearly 1000 more units is not going to make me feel it is any safer.

Hawaii’s infrastructure has been neglected for so long that it is becoming a sewage pit.

I recognize the need for additional low-cost homes, but the infrastructure has to be put in place first.

Subject: [EXTERNAL] Land for Agriculture is precious--malama aina!

Dear Mr. Hakoda,

I arrived on Oahu in 1965, and I despaired as I saw prime agricultural land turned into giant housing developments rather than on marginal quality land for growing food. When I arrived, there was no Mililani, as a prime example, much less Mililani Mauka. Many other examples could be cited, but I'll keep this brief. The LAST thing Hawai'i needs is reduction in the capacity to be more self-sufficient in food! Please honor the essence of Hawaiian culture and malama aina.

Deny this awful project! Jon Olsen
