Subject: [EXTERNAL] Testimony on IAL Designation

Hello Land Use Commission,

What is the reason for the designation of our land to be IAL? Was there a motion filed by a specific group or person?

If so, I believe there may be nefarious reasons in order to acquire federal grants with ease. Please let me know if the motion was filed by a company/specific person as that person may be involved with the owners of our property.

If that is the case you should definitely look into these persons before proceeding with the designation.

Thank you!

Best Regards,
