Dear Commissioners:

As one of the landowners at the Mahi Solar project site, we have been working with Longroad Energy and support this project, which will provide clean energy and encourage local agriculture.

We are currently negotiating agreements that will provide long-term use of portions of our land for the duration of the project's operation. These agreements will be executed in the next several months and will require that Mahi Solar posts financial security to ensure that sufficient funds are available to decommission the project after operation, remove all equipment and restore our property to its current condition.

Mahalo,

HAE VIENGKHOU
