Island Land Use Limits To Be Set

A major land matter—adoption of new land use district boundaries for the Big Island—is on the agenda of the next meeting of the State Land Use Commission in Kailua.

The commission will meet at 1 p.m. Friday at Hale Hala-wai, according to Ramon Duran, executive officer, Land Use Commission.

Two other items are scheduled for action at the session.

One is a request by Richard Smart to develop a concrete batching plant and manufacturing facility at Waikoloa, South Kohala.

The other is a request by Kid McCoy Jr. to rezone 146 acres at Captain Cook from agricultural to urban.

Maps showing the proposed district boundaries will be on hand for public inspection beginning at 12:30 p.m. There also will be a 15-minute film explaining the land use law and activities of the commission beginning at 1 p.m.
