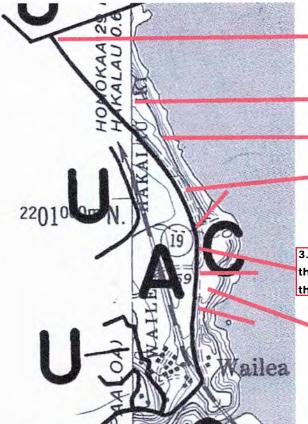

Exhibit 38

Hakalau to Kolekole Gulch

conservation district aprox. 800 ft. inland

cons. overlaid 13.35 acres of cane field

top of cliff line

former railroad

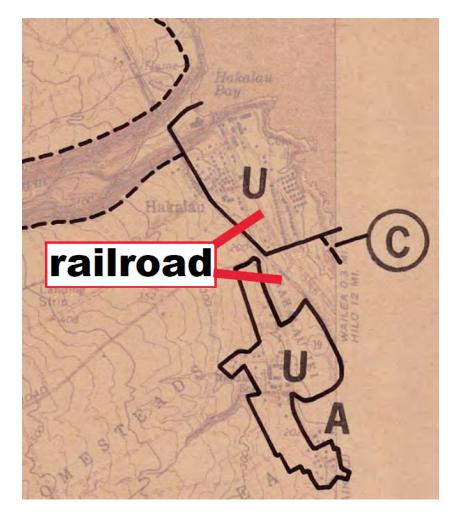

Petitioners' Property

3.4 acres of cane field - district line 330 ft. inland of the "ridge top" and 430 ft. inland of the high wash of the waves

lot :013 cane field approx. 1.3 acres

total cane field overlaid between Hakalau and Kolekole approx. 18.05 acres

Source, Exhibit 38, Papaaloa Map H-59 1969 Proposed

Note: how the district line moved on the 1969 map vs. the 1974 map

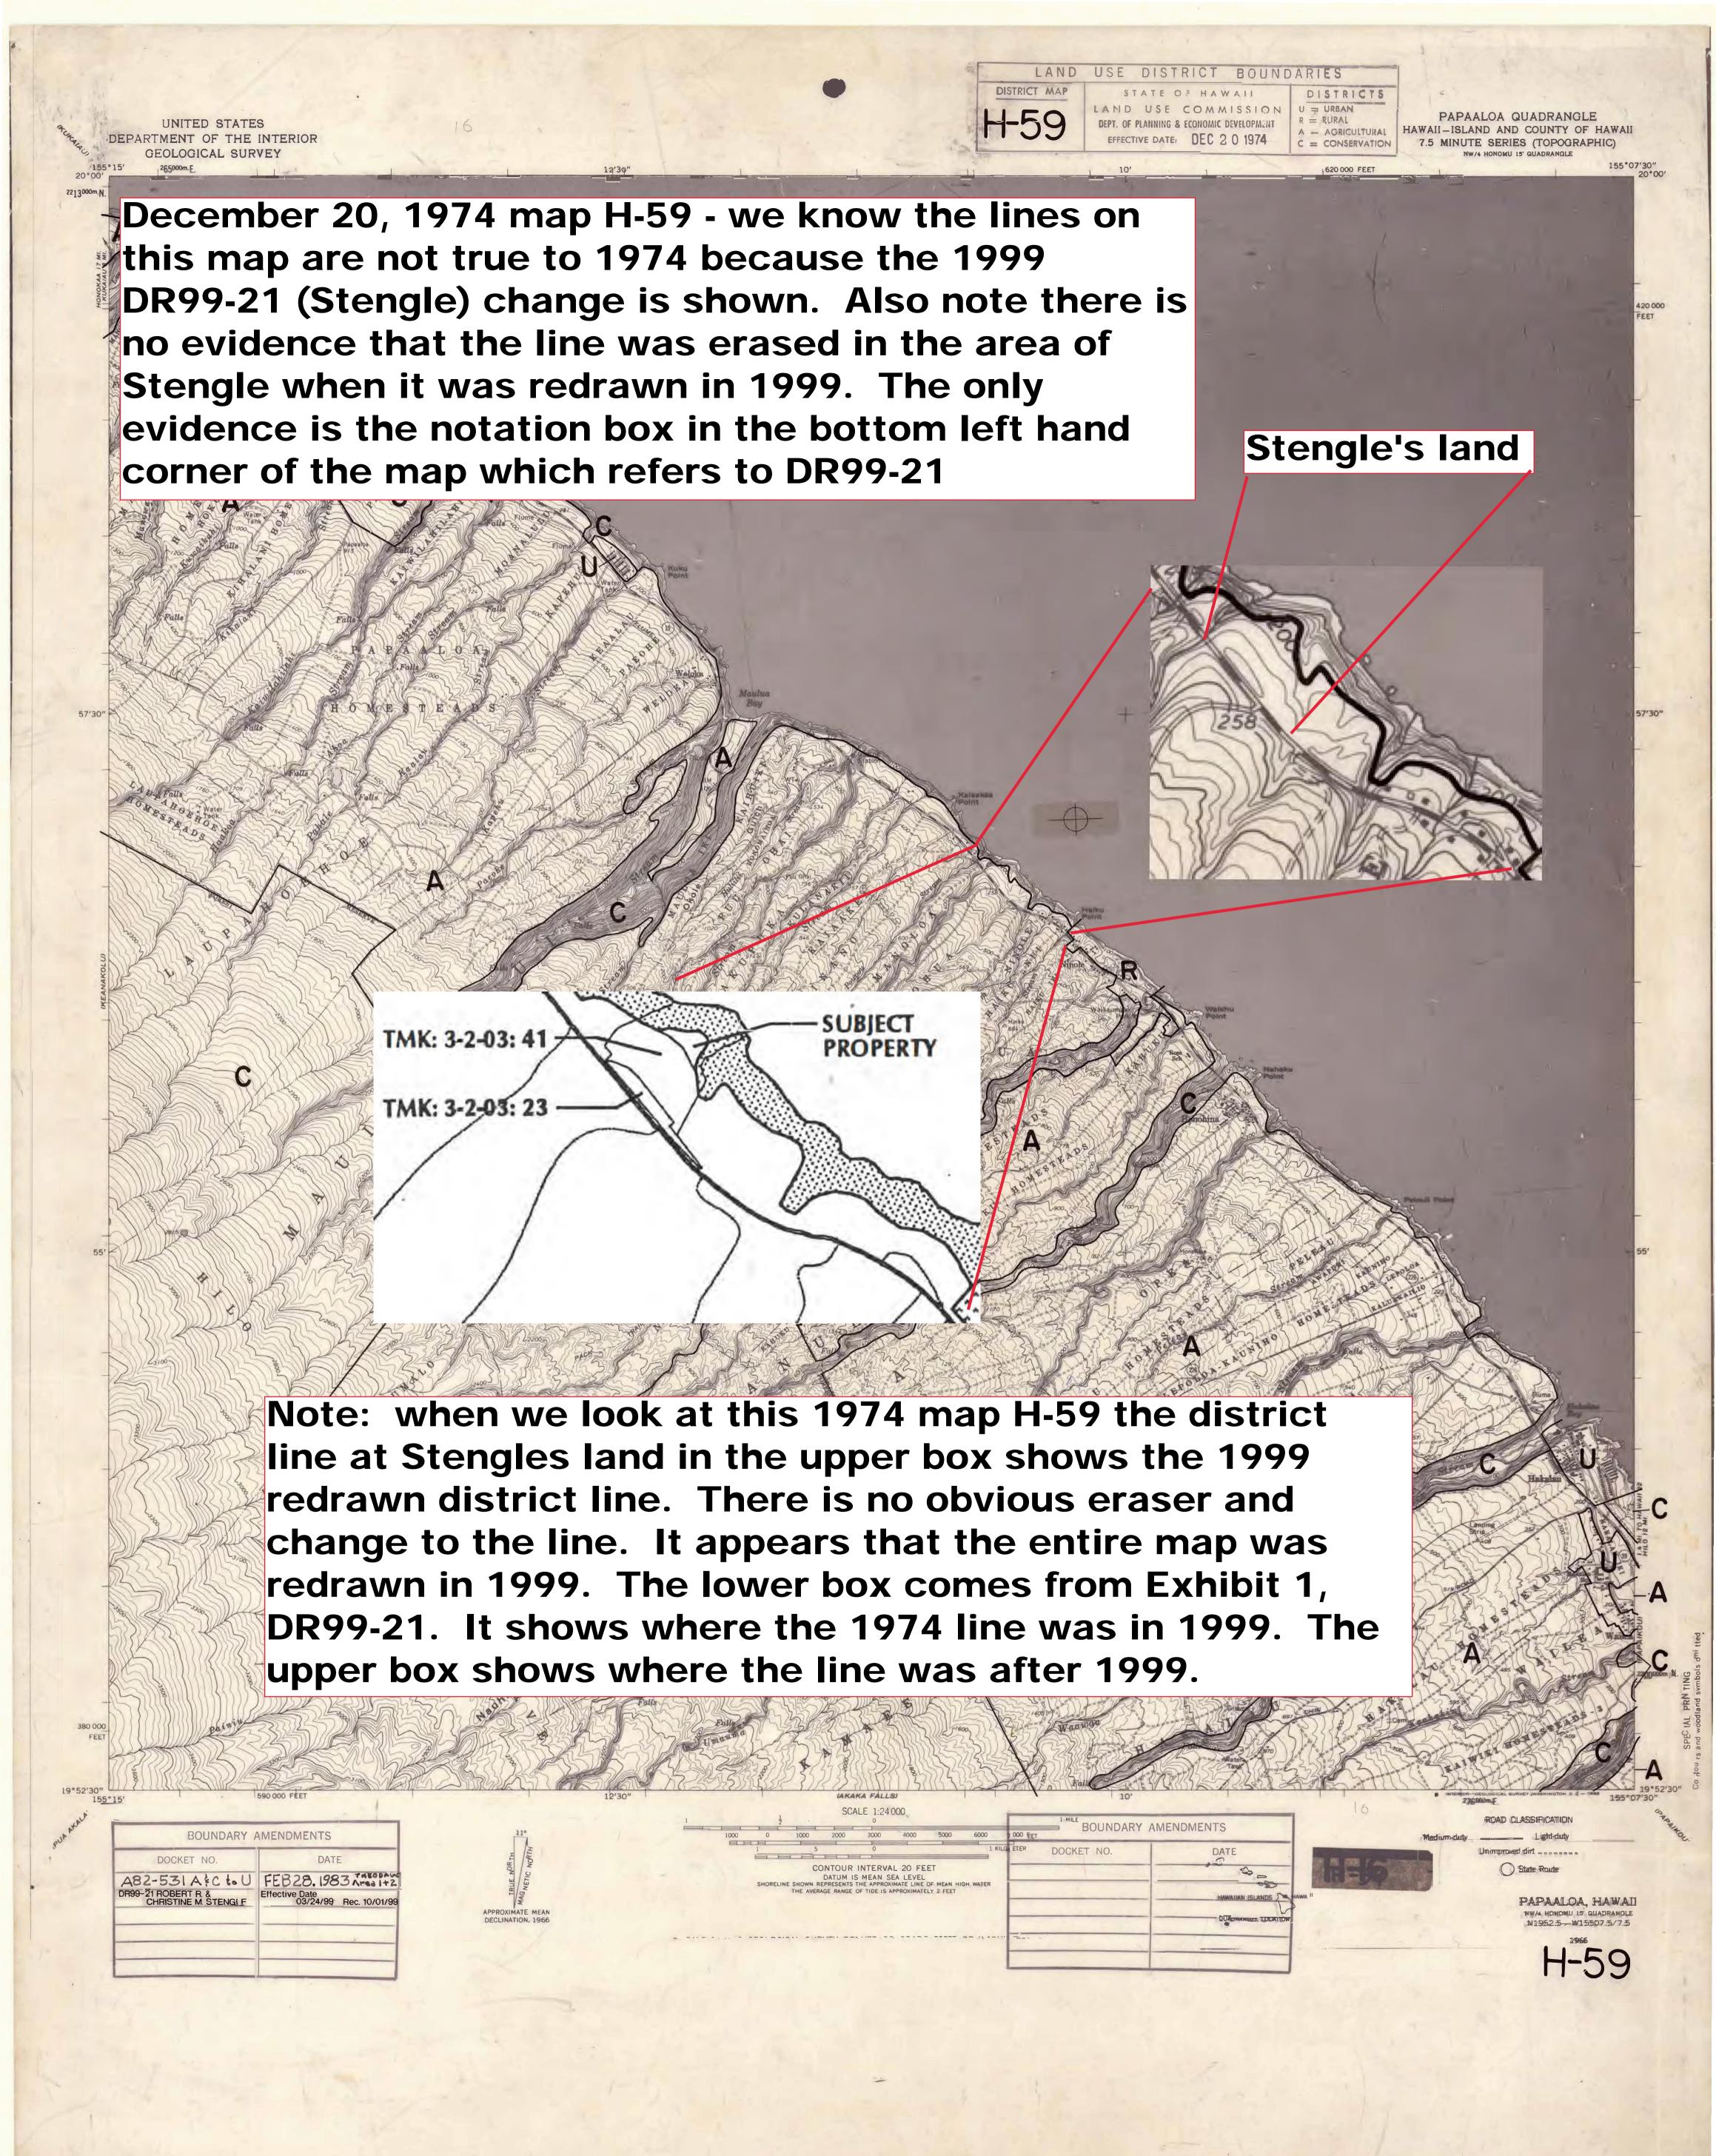

Source, Exhibit 40, 1974 Map H-59

(see next page)

```
But that's, I think, different than what
   the Churches have argued, which is they actually
   used the -- they used the cliff boundary here, and
   past interpretations have been incorrect.
             MS. KATO: I'm not sure what they used in
   1969. I understand that the -- I believe the maps
   were from a later time.
 8
             COMMISSIONER SCHEUER: Okay.
             MS. KATO: The maps that were later drawn
 9
10
   based on the report.
11
             COMMISSIONER SCHEUER: Yeah. You're
   correct. I have nothing further.
```

Source, Exhibit 5, Hearing Transcript, page 107 (emphasis added)

While the maps were drawn later during the period between 1969 and 1974 lots of errors occurred. The Proposed and Adopted 1969 district line did generally follow the railroad on Map H-59. Then in 1999 the district line was moved makai following DR99-21. Mysteriously, on the 1969 map, when the district line was drawn on to the map it was no longer following the railroad as it led southward from Hilo, but by 1974 the line had moved back to the railroad as it led southward out of Hakalau.
