---

I oppose the thought of zoning Waiehu from agriculture to urban. The history of lo‘i kalo being planted in the area confirms that this place was never urban. It was an ahupua‘a that sustained kanaka oiwi and kuleana ohana. You cannot change history so how can you change what is and was there for centuries with iwi (bones) to confirm this? Keep it the same and let history continue its mo‘olelo (story).
