Subject: [EXTERNAL] IMMEDIATE ATTENTION Waiehu is AG LAND stop Development of our resources
Date: Monday, November 21, 2022 10:22:57 AM

I implore you to PLEASE stop the development of Waiehu's agricultural lands.

The lands in this area have been reserved and are meant to be used for agricultural practices. There are so many resources (which we on Maui are already suffering a shortage from) on these lands for use of the lands and the people here.

It is a huge mistake to develop any more of our valuable resources. The island has already been suffering from so much loss of resources this is not the answer.

Waiehu should be left to thrive as ag land as it has for generations. Please listen to the cries of the people and if you must build elsewhere, but I also believe building more is not the solution to our housing crisis. There's simply too many people. Maui is already full capacity. Please save our community and do the right thing for the long term future .. please.

Aloha.
