Aloha(to whom it may concern),

Coming from a country that has many a round about, I do need to ask where the thinking was when the DOT and DOE considered placing a pedestrian crossing over the main artery, into and out of Kihei!

Was it not clear that more was required, especially as all they needed, was to look at what happens when Kihei Elementary and the Charter School get out each and every day, complete and utter mayhem, with traffic backed up from Lipoa to Klioana!

Please, fix this mess and do what has been required and asked for since the initial planning, install an underpass or overpass!

If the latter is too expensive(now), do what Buck Joiner has proposed and install an underpass before a life is lost and both the DOT and DOE get sued!

Faithfully,

Adrian R. Fourie
