Aloha LUC Members,
My name is Dennis Johnson and I have been a member of the Kihei Community for more than 12 years. I have been following the debate about the opening of new Kūlanihāko'i High School campus, and I am writing to ask that you consider granting the school occupancy by allowing students to be shuttled across the intersection in busses instead of leaving the school empty for an unknown amount of years while the overpass walkway is being built. It seems to me that this has become more of a political debate instead of trying to get the school opened for our children. Let's work together and get this done.
Mahalo,
Dennis Johnson
Kihei Resident
