The round about is scary and the lines aren't right. As a retired DOE high school teacher I am very concerned about high school students who will try to cross it.

The DOT has made some incredible stupid decisions that have cost taxpayers a lot. Another stupid example is the bridge on North Kihei Road that backed up traffic for 2 years. Some contractors are getting rich from these projects, studies on accountability should be done.

Helen Dale Allen-Alioto, taxpayer and voter
