---

Aloha,

I wanted to express my desire and importance for the children to be able to attend the newly constructed high school, Kulanihako'i High. I understand the concern about the over/underpass, but the children being in school, is if far more important than the debate on how they will cross the highway. I believe that the children should be allowed on campus and an alternative measure should be agreed upon. The debate has become too political and the children's best interests are no longer top priority. I would like to remind you that 2 other schools already cross the highway, just a block south with a crossing guard and all has been safe.

As a mother of 3, with one child entering high school next year, it is of utmost importance to me to be able to see children attend the school that was built for them. Please grant our children the privilege of attending this beautiful school and give them the chance to feel that they are worth every penny spent. It may be a political debate win/loss for you, but it will impact their lives forever.

Mahalo,

Theresa Tiwari
