Aloha to whom this may concern,

I am a parent of two children grade 9 and grade 6. I live right across from the new high school and have been affected by the construction for the last two years of the roundabout. My kids have been anticipating the opening of the high school as much as we have. This delay is unacceptable And irresponsible of the DOE we need to get the high school open ASAP by any means possible if this means building an underpass until an overpass can be constructed then so be it.. get these kids in school. I have waited 25+ years as a Kihei residence for this And another day should not pass without a common sense solution... We should've had a stoplight and an overpass put in two years ago. Whoever came up with whatever is happening should be fired. I am a homeowner in the Piilani one subdivision and a resident of Maui for 33 years... I hope these words matter .

Mahalo
