STATE OF HAWAII
LAND USE COMMISSION

Dear Sirs:

Being a government watchdog here on Kauai, I have followed the State Land Use Commission's involvement with your getting KATV TOURS to get their activities into compliance with the law.

The article in the Garden Island Newspaper of 6/13/07 by Blake Jones was vividly descriptive of what KATV TOURS did wrong (constructing stairways costing over \$1000 without permits etc.) and hopefully commissioner Ching has seen to it that ALL of KATV TOURS illegal activities on Grove Farm land has had remedial action taken to make it legal.

I was sent copies of pictures showing the many things that KATV TOURS did wrong and I applaud the public and the SLUC for their involvement in getting whatever done that is necessary to put this land into conformity with what the TOURS use permit requires.

Sincerely,

Glenn Mickens
