September 18, 2007

Aloha Commissioners,

I'm writing to you about a situation that I have been made aware of involving what I believe is misuse of our agriculture lands. Information was shared with me and I have seen pictures that have me questioning the activities of Kauai All-Terrain Vehicles on ag land. The photos show unpermitted structures, specifically a gazebo and stairway, built in a flood zone area. These structures have caused disturbance of natural landscape and water runoff.

Action must be taken to correct these violations and control the activity of this group. I ask that you give serious attention to this matter.

Mahalo for your time and consideration.

Concerned Citizen,
Chris Fernandes
