Re: Hawaiian Memorial Life Plan, Ltd.; LUC Docket No. A17-804

Dear Mr. Orodenker:

This letter is being sent to inform you that damselflies have not been seen at Hawaiian Memorial Park ("HMP") since January of this year.

Attached is a memorandum written by Dr. Steve Montgomery and Eric Guinther that explains the situation.

We note that Dr. Montgomery believes that it is still possible that the damselflies will be sighted in the future.

HMP is committed to continue to comply with and perform all requirements in the LUC's D&O, including all requirements relating to the damselflies, and we are hoping that we will be able to report future sightings of damselflies.

Very truly yours,

MATSUBARA, KOTAKE & TABATA

  
Curtis T. Tabata
