I am writing in full support of the Waikapu Development Venture project. Reflecting back on this project, it's obvious that the developer and their team have exceeded in taking the necessary steps in providing central Maui with an affordable housing project for ownership. Maui has been in dire need of housing prior to the recent wildfires. Post wildfire we have seen an astronomical increase in rents and less options to purchase.

The community looks forward to this and other AFH projects to break ground and come to market.

With much appreciation,
