Attention: Mr. Tatsuo Fujimoto, Executive Officer

Dear Sir:

The Directors of the West Oahu Soil & Water Conservation District have reviewed the Land Use Commission Agenda for March 23, 1973 and wish to express our positions as follows:

1. SP73-146 - Warren Corporation

We have no opposition to this as we recognize the need for such an operation and, if conducted properly, it will cause no serious problems.

2. SP73-147 - Pacific Concrete & Rock Co., Ltd.

This has been reviewed by our board previously (see attached letter) and we have no major objections.

Sincerely,

R. D. Wiemer  
Chairman, West Oahu SWCD
