State Land Use Commission-

Subject: Written Testimony for A11-792 Department of Housing and Human Concerns, County of Maui Status and progress report

TMK (2) 4-9-2: portion of 58.

Dear Commission Members,

I am writing this email testimony to say that the island of Lanai definitely needs more housing, especially affordable housing for people that wish to reside here long term. This program is urgently needed to house the growing community here on Lanai. Please consider getting this project underway as soon as possible.

Thanks you for your consideration,

kert
